

Send for "7 Reasons" . . . it tells the how and why of Better Turf.

## Premier Poultry Manure

will give you greens and fairways  
your members will crow about

The surest way—the thriftiest way to get, and hold, healthy turf on your greens and fairways is to feed a natural grass food. That's why Premier Poultry Manure is used, has been used for years, on hundreds of America's fine courses.

**Premier Poultry Manure Company**  
327 South La Salle Street, Chicago

makes a steel center tractor spud for golf course work, which has been constantly boosting its sales record, they report.

The spud serves the double purpose of providing traction for tractor wheels and of aerating the turf. It is so tapered that it punches clean, small holes and it keeps this shape until worn away because of an extra hard steel core that out-wears the softer outer steel. This exclusive feature gives longer life to the Diamond spud, according to the manufacturers. The spud

is equipped with a thin shoulder that gives ample grip to a wrench and yet does not damage turf. A split washer keeps the spud locked firmly to tractor wheel.

The Diamond Calk Horseshoe Co. has recently issued a series of catalogs covering the complete Diamond line, including a section on tractor spuds. Other catalogs are: Diamond Tools (Wrenches, Pliers, etc.), Pitching Horseshoes, Drop Forgings (Hooks, Picks, Mattocks, Clevises), and Horseshoes and Calks.
