## GRASS

### Washington and Metropolitan

## STOLONS and SOD

CLINTON VALLEY  
Utica, Mich.

This has been a season when Washington strain has proved its worth. Some courses have had a few greens of this grass which have remained good while with identical care their greens composed of other grasses have been lost in part or entirely. Don't blame your green-keeper if its your grass.

Stolons may be given any name, look pretty much alike and price can be cut but a green once planted is expected to last for years.

For 15 years our strains have been kept pure. Washington strain stolons purchased now will produce the same hardy fine turf as a green planted with our Washington 10 or 15 years ago.

Inquire regarding best method of replanting greens.
