

old one; those left and right are the new alternate greens. An alternate tee, used for playing to the green at left, is located about where the cameraman stood to take this photo.

No. 11 green can be rested and repaired by using an alternate tee back of No. 8 tee and playing across the barranca to the old No. 7 green, which makes it a very short but very tricky shot.

It seems to us that by the time the rest of the alternate greens are in use most all of the problems of a one-course club will have been eliminated. The plaint of the golfers of monotony and their tendency to join other clubs simply to get a change in play, the care and upkeep of the course, which is of prime importance to everyone, will all have been taken care of. In fact, our claim to, "Two Golf Courses in One" is most appropriate.

### Use Club Bulletin Boards to Inform Members

**A**RE you using your club Bulletin boards for educational, as well as announcement, purposes? Frequent changes of copy on the Bulletin boards will give members information on committee activity and do much toward solution of club problems.

Some subjects that might be covered:

The USGA recently ruled: "A boy may not engage in amateur competition who is in an occupation which would class him as a professional if he were over the age limit of exemption from that classification."

Thus, caddies, caddiemasters and assistants to professionals are not eligible for amateur competition, regardless of their ages.

If players who have been caddies or caddiemasters ceased to act as such prior to their eighteenth birthdays, or if an assistant to a professional ceased to act as such prior to his sixteenth birthday, they are automatically amateur golfers and do not need to apply for reinstatement to amateur standing.

The etiquette of golf. Many people don't know that the etiquette of the game is codified and accompanies the rules.

A note advising that the courts have ruled the player whose ball strikes anyone on the course is legally liable, unless "Fore" and other due warnings and care are employed.

A sketch showing the proper method of repairing, with a wooden tee, the depressions left in a green by pitched shots.

A note on the proper method of replacing divots, so the player can check on his caddy.

A note of caution against permitting the flagpoles or bags to mar greens.

New variations of the old, old request to smooth out footprints in sandtraps can always be used on a Bulletin board.

**O**NE of the liveliest of industrial golf tournaments conducted anywhere in the country held forth June 20-24 at the Whittle Springs municipal course, Knoxville, Tenn. Joe Kennedy, pro at the course and R. L. Ashe of the Standard Knitting Mills, Inc., teamed to get the competition planned and well publicized. The publicity drew entries from many of Knoxville's offices and factories. Prizes of local manufacturer were awarded winners in various flights.

Kennedy's observation has been that if the pro at a municipal course doesn't push to get a local industrial tournament or league playing at the course, one of the very best pro advertising and promotion operations is being muffed.
