

Michigan State

Michigan State College has scheduled its annual greenkeeping conference for March 13-14. The conference is designed to give instruction in the classification, nature and properties of soils, and the suitability of various soils for greens construction and maintenance. Director of the course is Prof. James Tyson; registration fee is \$1.00. For further information write Prof. Tyson, care of Michigan State College, East Lansing, Mich.

Purdue

Annual greenkeepers short course at Purdue University will be held Feb. 25-26. All educational sessions will be held in the field house, with the annual greenkeepers banquet to be held on the 25th (7 p. m.) in the Memorial Union building. A program somewhat similar to other years is being arranged, and the list of speakers is expected to include Dr. John Monteith, USGA Green Section; O. J. Noer, Milwaukee Sewerage Commission; A. L. Brandon, secy., GSA and editor, The Greenkeepers Reporter; plus several members from Purdue's agricultural and horticultural staff. Complete details on the Purdue conference may be obtained from M. L. Clevett, Recreation Dir., Purdue U., West Lafayette, Ind.

Denver

Greenkeepers short course in the Denver (Colo.) district will be held February 18-20 at the Park Lane Hotel in Denver. The conference is being held in conjunction with the florists and nurserymen's annual short course. Speakers tentatively lined up for the session include O. J. Noer of the Milwaukee Sewerage Commission, and Dr. John Monteith, Jr., USGA Green Section. Further information on the Denver conference may be obtained by writing J. L. Haines, supt., Denver (Colo.) CC.

USGA To Re-Elect 1940 Officers—The USGA nominating committee, Findlay S. Douglas, chairman, presents for re-election in 1941, the same officers and executive committee who served the association in 1940. The report of the nominating committee thus proposes the election of Harold W. Pierce, The Country Club, Brookline, Mass., for a second one-year term as president. The nominations, which are tantamount to election, will be presented for final action at the USGA annual meeting this month.

John G. Jackson, a former president of the USGA, heads the 1942 nominating committee.

Double Tees Lend Variety to Nine-Hole Course

NINE-HOLE courses that want to increase their member attraction without undue expense should give careful study to the possibilities of two sets of tees. Competent architectural advice frequently will give the 9-hole course with an additional set of tees much of the interest of an 18-hole layout.

One of the most interesting two-tee 9-hole courses in the country is that of the Country Club of New Canaan, Conn. Mike Buckley, pro at the club, tells of the additional tees and their effect in expansion of the course's interest:

"The double set of tees at our course has given us shots that we've never had before, and has had the value of giving our members a mastery of shots that stands them to good advantage when they visit other courses. One of the instruction problems of the pro is that of teaching the member how to study a course and plan shots accordingly and I have found that the emphasis on shot-planning provided by different tees for the same green has been educational, both for the members and myself.

Added Maintenance Cost Is Low

"James Scott, our greenkeeper, says that the additional maintenance cost of the extra tees is not much. He points out that division of tee wear by the addition of an extra set of tees reduces the expense of keeping one hard-used set of tees in the first-class condition our members want—and get.

"We were careful not to place the additional tees too far from the preceding green, so the walks from greens to tees are not tedious, nor do the new tees' locations appear to be merely an afterthought.

"Tees of the first 9 holes have white markers; the second, red.

"We have only one tee for the first and tenth holes. The second green is
