Speed the Victory Day Save That Scrap—with a

Victory Baler

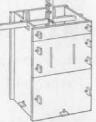

Baler, designed especially to assist in the national program to collect scrap for our war effort.

Made entirely of wood, treated to make it vermin proof and fire and water resistant. Design makes Victory Baler proportionately stronger than metal baler of like size. Makes a 50 to 80 lb. bale, a perfect size for handling and storing.

You'll be surprised at the amount of scrap around your club—magazines, cartons, rags, corrugated boxes, cigarette packages, tissue, etc. Help out your country by Victory Baling your scrap—and at the same

time you'll pick up enough change to quickly pay the cost of your baler. We advise getting your orders in promptly, because present low price of \$12.50, (F. O. B. Chicago) is subject to change.

feed your scrap to the Victory

Golf Dots.... and Dashes---

By K. R. SUTPHIN

THERE'S been a lot of the old-fashioned "pitch in and help" business this spring at some of the small 9-hole clubs. Where budgets are reduced, and manpower scarce, many clubs have had a day or days where the men cleaned up the premises, burned rubbish, cleared the traps, etc., while the wives did a clean-up job on the clubhouse. A hot lunch, served by the women, usually followed the chores. . . . Up until April 23, 98 PGA members had been enrolled in the nation's armed forces.

Work on the new clubhouse at Westbrook CC, Mansfield, Ohio, is nearing completion; members plan to begin using the building about June 15. Total cost of the new structure is expected to be \$135,000, including fur-

SUMMERTIME of MILORGANITE on GREENS

For spring and fall feeding most greenkeepers rely upon organics (principally Milorganite). They use it to supply slow-acting and long-lasting organic nitrogen. The practice is a sensible one. It provides a continuous supply of nitrogen, so grass grows at a uniform and steady rate through-out both seasons. This lessens dollar Nitrogen starvation makes spot. grass more susceptible to this cool weather disease. Too little is as bad as too much.

During summer, nitrogen is used sparingly to combat brown patch, which is a high temperature disease. Many greenkeepers switch to quickacting soluble fertilizers, such as Urea, sulphate of ammonia, nitrate of soda, etc. Rates and frequency are adjusted to barely maintain color and growth.

Urea and nitrate of soda are no longer obtainable as such, and sulphate of ammonia is scarce. The situation is apt to become worse, rather than better. This may necessitate a switch to organics for summertime use.

Some authorities advise against using organics during warm weather. They think nitrogen is released too fast. The objection is not justified except when excessive rates are used on greens which are watered generously. Too much soluble nitrogen is just as bad, whether it be sulphate of ammonia, Urea, ammo-phos, or nitrate of soda. With them damage is immediately apparent.

When using Milorganite in summer, rates should be reduced drastically to 5-10 pounds per 1,000 square feet each time. To avoid nitrogen build-up in the soil, applications should be spaced so grass just starts to show signs of nitrogen hunger before another is made. When used that way, Milorganite performs exceedingly well even in summerting forms exceedingly well, even in summertime. This truth has been demonstrated on many

GEORGE A. DAVIS, Inc. 5440 Northwest Highway Chicago, Ill. WWGA Amateur has been transferred from San Antonio (Tex.) to Sunset Ridge CC (Chicago district). The WWGA Open scheduled for Elmhurst (Ill.) CC, June 22-27, was retained on the calendar.

Jesse Wetzel, newly elected president of the Club Managers Assn. of America, was guest of honor at a dinner given by the Detroit Chapter, CMAA, at Wm. Roulo's Rotunda Inn, Pine Lake, Mich., April 20. Harry Fawcett, Wetzel's predecessor as CMAA president, was among those who hailed the chief.

Among shortages in golf operations are those of assistant pros, caddiemasters, and club-cleaning boys. Prostaffs are working short-handed... Tire situation is curtailing tournament schedules of regional golf organizations... Olin Dutra has been elected pres. of Southern Calif. PGA, succeeding Joe Novak. Charley Lacey is first VP; Bill Hickey, former sec. of the organization, now is second VP; Marvin Clawson is sec.

Royer Keeps Rockford Golf Courses in Shape

ROCKFORD, ILL.—(pop. 100,000)—has two 18-hole and one 9-hole municipal golf courses. The fees are among the lowest in the country, and the play throughout the season is heavy and continuous; but the greens are kept in splendid shape by constant soil conditioning. On this job the ROYER MODEL "K" COMPOST MIXER plays an important role by shredding, mixing and aerating 350 tons of compost and 100 tons of disintegrated sewage sludge annually.

The Royer Compost Mixer blends in enriching or sweetening chemicals in the required proportion. Removes all sticks, stones and trash. Can be taken anywhere. Loads quickly onto wheelbarrows or trucks. Rugged construction. Twelve stationary and portable models with electric, gasoline or belt-to-tractor drives.

There's a type and capacity for any size golf course or park district.

They save time, manpower and money. If your club is short-handed this season, now more than ever you need a Royer.

ROYER FOUNDRY & MACHINE CO. 171 PRINGLE ST., KINGSTON, PA.

Jack Cummins, Grandview GC, York, Pa., pro, heads YCI Junior College golf program recently established by the school's physical education department. Jack, Hugh McInnes, York CC pro., and Arthur Weeks, pres., York County GA, opened the program with a demonstration and instruction picture show to which the public was invited.

Golf now has an "Honor Roll" of 527 clubs, public courses and associations which have planned tournaments among their members for benefit of the American Red Cross War Fund, according to reports received by the USGA up to May 1. A total of 2,964 tournaments has been arranged by the 527 organizations thus far on the "Honor Roll." This means an average of nearly six events sponsored by each one. Forty-four states and the District of Columbia are represented. Thus, golf already seems in position to make a more substantial contribution to the humanitarian work of the Red Cross than was done in 1917-18. The number of Red Cross tournaments already scheduled for 1942 greatly exceeds the 1917-18 figures.
