J.) founded as Newark AC, scheduled for sale to satisfy foreclosures on mortgages totaling \$537,661. . . Barney Clark, Denver, won Rocky Mountain pro title at Grand Junction, Colo., with 205; George Schneider and Ellsworth Vines followed with 209 and 211.

Nelson and McSpaden playing exhibition against Roy Owen and Ralph Meyers, Sept. 19 at Butte (Mont.) CC played through first snow of the fall-winter season. . . Jean Bisgood, 22, former petty officer in women's reserve, British navy, won Daily Sketch women's tourney with 75. . . Reg Whitcombe, her

TIMELY TURF TIPS

Milorganite is the ideal source of nitrogen for greens. They need enough Milorganite to maintain dense turf and minimize dollar spot.

Fairways have been generally neglected. Turf improvement should start at the first opportunity. Most fairways are badly in need of fertilizer, many require lime, and on some a weed eradication program should accompany or precede fertilization.

Our Turf Service Bureau and Soil Testing Laboratory are available to those desiring assistance in formulating an effective and economical green or fairway fertilization program.

THE SEWERAGE COMMISSION
Milwaukee, Wisconsin

MILORGANITE for BETTER TURF

pro, says she'd be international star but she's studying law and gets but little time for practice or play. . . Mrs. William B. Symmes, jr., Franconia, N. H., has bought Pronie GC and plans many improvements.

Victor T. Jepson has bought Rapid City (S. D.) CC. . . Mrs. Lloyd Kinney has been with Brookfield (Mo.) CC 26 years. . . Springfield, Mo., after couple of years of debate acquires ground for construction of many course and recreation center. . . Ray Squires, out of army, back with A. D. Peterson Co. on Long Island territory. . . Lakeville, L. I., N. Y., Glen Oaks links said to be slated for sub-dividing.

Sgt. Bill Gormley got dozen balls sent by brother Jack, pro at Wolfert's Roost CC, Albany, N. Y. when Bill was in Italy. . . Bill laid out a 4-hole course near Rome, made a club, and kept in practice. — Bill's back now. . . Olympia Fields CC (Chicago district) has called its 1946 and 1947 bonds for redemption. Olympia Fields, reorganized 16 months ago, has attained excellent cash position.

Five British pros won more than \$64,000 prize money in August competitions. . . London Evening News says "For 40 years there has not been such a chance as there is today for the younger pro-

fessionals. * * * The pre-war generation of professionals is fading out and a new one is not yet established."

British Golf Monthly paid tribute to performance of Lloyd Mangrum finishing 4 strokes behind the winner, Cyril Ward (289) in the Daily Mail tournament at St. Andrews. . . Lloyd, on leave from the U. S. army, was playing with strange clubs. . . T. Simpson, noted British architect, said in Golf Monthly, "Never once in my 40 years experience has a great player, amateur or professional—John Low excepted—offered me anything but the worst possible advice. I am forced to regard the good player, amateur and professional, as an outstanding menace to the game on the subject of what constitutes a good hole. I say he is a menace, because, on account of his physical prowess, what he says carries weight with the average member." Go ahead, argue.

Hector Farini Fynn, Argentinian sports writer, is publishing a book "Golf and Latin American Golfers." . . Martin Pose (275) won the 1945 Brazilian national open. . . Golf's booming in Brazil. . . Players of 8 nations flew to Gavea GC, Rio de Janeiro for an open event. . . Mario Gonzalez, home pro, shot 274 to win the open event held at Sao Paulo's Santo Amaro GC.

★ WILSON C. BROOKS, on leave of absence the past four years from Melflex Products Co., Akron, O., has returned to assume his duties as sales manager. With the exception of the four years during which Brooks' work was concerned with war production with Republic Steel Co., he and L. E. Warford, Melflex president, have been business associates since 1916. The Melflex plant is again making prompt deliveries to golf clubs on their widely used line of rubber floor matting, step treads and link mats.

PERFECTION SPRINKLERS FOR 1946

... were first offered in 1939

Since then they have been produced in large numbers for crop irrigation and other high priority purposes, permitting extensive tests and opportunity for minor improvements to bring them to Greenkeepers now as nearly perfect, we believe, as any sprinkler can be made.

The Positive Slow Turning type offer the following outstanding advantages that are worth considering:

1. Using a small slotted nozzle for the inside area and a large open nozzle for the outside, the largest possible coverage is obtained for any given pressure at the sprinkler. We invite comparison.
2. Even distribution from the sprinkler out makes it impossible to flood greens even with low centers and high outside banks.
3. Full application of water on the outside edges of sprinkled area, making it possible to keep the banks from drying out or scalding due to lack of sufficient water.
4. Simple, Practical, Sturdy Construction that anyone can understand (how and why they turn).
5. All Perfections are mounted on Perfection heavy galvanized perforated disc steel bases, the most practical sprinkler base ever made at any price, and will never injure the most delicate green.
6. There is a Perfection for every Greenkeeping need and they are all built to give long uninterrupted service with minimum attention.
7. PRE-WAR PRICES FOR 1946, something to think about because Perfections always were low priced.

Insist on Perfections from YOUR Dealer or write direct for name of dealer nearest you.
