"So many golf courses have either wholly or partially been turned over to raising foodstuffs that enormous reconstruction must follow the conclusion of the war with Germany. Incidentally, this reconstruction may give stop-gap work to men returning from the battle fronts and for whom immediate employment cannot be arranged following the cessation of hostilities.

"But why adhere to eighteen holes, which simply occurs because at St. Andrews in the long ago they had nine out and nine home, if the ground available could be used to lay out a better golf course with 12, 14, or 16 holes. Many golf courses we know are cramped and in some places have dangerous holes in this faithful adherence to tradition when a lesser number would give a far better lay-out."

## 18 Protect Equipment and Your Course— SHARPEN MOWERS WITH A PEERLESS GRINDER

*It Takes Less Time and Man-Power to Keep Greens and Fairways Neat and Trim with Sharp, Well-Conditioned Mowing Equipment*

It's not only good business, but a patriotic duty, to keep mowing units in A-1 shape for the duration. Sharp, smooth-running mowers help put your course in fine playing condition with a minimum of "mileage," time and effort. In addition, with proper care, your cutting units will last longer, and cost less to operate—conserve vital materials for war use.
