

Beat Him To The Punch

Brownpatch has a habit of striking fast. Don't wait for an attack. It is now so simple and economical to use preventive measures.

Just apply 1 ounce of Calo-Clor® to each 1000 square feet of turf, either by dry application, or use Suspension Calo-Clor in sprayers.

For turf already attacked by brownpatch, use 3 ounces per 1000 square feet. Remember, Calo-Clor is the most effectual method of preventive and control of brownpatch yet developed. It is prepared in accordance with the formula approved by the Green Section, U.S.G.A.

See your dealer or write us for special information. Specify when ordering, either Regular Calo-Clor for dry application, or Suspension Calo-Clor.

Quarter Million Is Pros' Summer Tourney Pot

★ Sixteen events, an increase of five over the 1944 summer schedule, will constitute the record summer calendar announced by the PGA. The prize money will be approximately \$250,000 in war bonds, almost \$100,000 over last year.

The top money event on the golden trail will be Tam O'Shanter's Open at Chicago, for which George S. May will put up almost a quarter of the summer's total prize money on the bond basis. The Tam prizes will be \$60,000 in war bonds, or the winners can take \$43,000 cash.

A Pacific Coast tour from late September through October will take in Spokane, Portland, Tacoma, Seattle and Vancouver. The Pacific northwest events will have about a \$50,000 bond purse. Montreal will open the swing with a \$10,000 tournament June 7-10.

One week-end of the summer go'd rush will be devoted to the Nelson-Snead match; 36 holes at Fresh Meadow club, May 26, and 36 holes at Essex CC, May 27. Net proceeds of those events will go to the PGA program for building golf courses at hospitals for wounded warriors.

The PGA asks that tournament promoters give net proceeds to veterans' rehabilitation and that clubs conduct events

PATENTED

The principle of balancing the weight of the golf bag full of clubs over the axle is covered by Kaddie Kart patents and this exclusive principle has made Kaddie Kart the phenomenal success that no other device can give. It eliminates all weight on hand, arms or shoulder. Kaddie Kart patents will be protected to the fullest extent.

Kaddie Kart

FOR LEASE

No capital investment. No maintenance expense beyond ordinary care. You rent them to your players at 35 cents per round. We still have a number for 1945 seasonal lease. Send for full information.

FOR SALE

We have a few factory reconditioned Karts for sale. Write for details of available supply.

MILKY DISEASE SPORE DUST
FOR QUICK, JAP BEETLE CONTROL
EFFECTIVE
JAPIDEMIC

Kills beetle grubs in the soil. Made under U.S. Dept. of Agriculture license. Apply to infested areas by "spotting" level teaspoonful on surface at five foot intervals each way. Milky Disease spores infect beetle grubs now feeding on grass roots. Each infected grub releases billions of additional spores. Entire area soon inoculated. Write today for Free Folder.
