Ko-lap-si Kart

TRADE MARK

The Kart with a brain. Floating wheel assembly engineered to perform same function as "Floating Power" in the automobile. "FLEXIBLE BODY TORSION" uses resistance to torque as a shock absorber. Engineered to absorb 90% of the bumps and jolts of rough ground to give the smoothest, easiest rolling Kart known to science.

wage per employee figured in comparing statements of 1946 with those of previous years.

The convention was efficiently conducted by the General Convention committee headed by Eugene F. Sweeney, chmn., Club Managers of the City of New York; Joseph P. Tonetti, chmn., Connecticut Club Managers Assn.; William Norcross, chmn., Metropolitan Club Managers Assn.; J. J. Bond, chmn., New Jersey Club Managers Assn. and their committees, and the 1947 National Convention committee headed by Fred H. Crawford of Louisville's Pendennis club.

An interesting and active entertainment program for the ladies also was a feature of the convention.

TULSA SLATES 10G OPEN — Tulsa, Okla., will have a \$10,000 Open on its Mohawk muni course Sept. 18-21, sponsored by Knights of Columbus with Tulsa charities on a non-sectarian basis as beneficiaries. The KCs expect to net for charities \$5,000. Joe Dahlman, pro at the host club, was a prime mover in working up the event. With the veteran Joe, who is sec.-treas. of the Oklahoma PGA, were its pres., Hugh Bancroft and Marion Askew, Oaks pro, as promoters of the event. A field of 300, including leading name pros, is expected.
