

HENDERSON'S

GOLF GRASSES

We have special, tried and proven golf mixtures for every purpose — and our complete service to Greenskeepers also includes blending special formulas to your own specifications.

PETER HENDERSON & CO.

35 Cortlandt Street New York 7, N.Y.

portance quickly recognized in applying 2, 4-D on turf near flower beds, shrubs and trees. A hood of 2-gauge steel mounted on two cushion tired bronze-bearing disc wheels encloses four especially designed fan-spray nozzles which spray a yard-wide stripe as fast as the operator walks. Around the bottom of the hood is fitted a skirt of tough two-ply solid-woven webbing which hugs the grass, thus confining the spray within the skirted area and permitting fast, efficient spraying without danger of spray drift. The Lawn Protector is connected through brass fittings to high-pressure hose leading to power sprayer. Its quick acting ball-valve cut-off is operated by a fingertip control on the handle. A guide roller at front under the hood keeps the nozzles at correct height and also serves to keep the machine upright when not in use. Literature upon request from the mfr.

New Movies Available for Club Showings

If it's up to you to line up one of your club's entertainment programs and you want to score with a feature that will prove mighty useful to a large percentage of your members as well as fun for all, look into the new colored movie entitled "Goodbye Weeds", just released by Sherwin-Williams, Cleveland, Ohio, makers of the weed killing chemical Weed-No-More.

ROBERT TRENT JONES

*Golf Course
Architect*

20 Vesey Street
NEW YORK, N. Y.

All of your members have heard of 2, 4-D which has brought such amazing improvement to fairway turf through weed eradication. The new S-W movie explains the mysteries of Weed - No - More's workings in a seventeen minute film in which Hollywood stars weave a story of a golfing husband who learns from his club greenkeeper about a pleasant and positive way to rid his lawn of weeds. Micro-photographic shots and cartoons help carry the scientific part of the plot. Donald Woods, Wanda McKay and J. Farrell MacDonald of movie fame do a swell job with the entertaining and instructive story. Ken Carpenter of Bing Crosby's radio show is the narrator. "Doomsday for Pests!", another S-W movie for club audiences tells, by means of an ingenious cartoon treatment, the story of Pestroy, the company's DDT insecticide. Jerry Fairbanks and Eddie Paul, Academy Award winners, have done a masterful job in blending micro-photography, cartoons and living insects, and real life shots into a 17 minute dramatic presentation of absorbing interest. Write to Weed-No-More Sales Division, The Sherwin-Williams Co., Cleveland. The 16 mm films in color and sound are available without charge.

CUNNINGHAM

MOWER

- Fence Rows
- Hazards, Roughs
- Driveways
- Lawns, Woodlots

It mows clean and fast in tight corners; 3-foot cut; variable speed. Young folks can run it. Rugged design, detachable engine. See your dealer or write Dept. 12.
