NEWS from the MANUFACTURERS

FULL COLOR MAILING INSERTS ON POWER-BILT CLUBS AVAILABLE

Hillerich and Bradsby Co., 434 Finzer St., Louisville, Ky., have prepared a special, four-page, full color catalog insert showing an attractive display of the latest Power-Bilt golf clubs which are available in quantity to professionals making direct mailings to their members and prospective customers or as inserts to be enclosed with monthly statements. It is an eye-appealing mailing piece which the alert pro can use to advantage. Write the company your needs and shipment will be made promptly.

"DYNAMITE THREAD" FEATURES NEW ACUSHNET BALL CONSTRUCTION

An entirely new type of thread, described as super-resilient, and a certain special method of winding known as "True-Circle", are being used to give this year's Acushnet Titleist golf balls added distance and improved shot control. Enthusiastic over the balls' performance in test play, the players started calling the new thread "Dynamite Thread", a phrase so descriptive that Acushnet is building its 1949 advertising campaign on "D.T."

Acushnet tells of their concern over the new construction during its early development, when the D.T. Titleist showed distance that caused doubt as to its legality. By trial and adjustment this was solved so that, while longer than any previous

Golf Course For Sale

My clients, the Order of Franciscan Fathers, wish to sell their 18-hole golf course known as the *Cedar Lake Golf Club, Cedar Lake, Indiana*. This course is near Hammond and Gary, Indiana. Cedar Lake itself is one of the best resort towns in the State. It has a summer population between 40,000 to 50,000.

Here's what one of the nation's leading golf course architects (name available upon request) has to say about this course—"I have carefully inspected the Cedar Lake Golf Club in Cedar Lake, Indiana. I consider the total cost to reproduce this golf course today would be \$91,800.00. This figure would include 129 acres of land more or less, consisting of an 18-hole golf course, practice putting green, service buildings, bridges, water supply system, tees, greens, fairways, sand traps, roughs and the clubhouse."

Last year this golf course grossed \$27,687.42. However, its potential is unlimited under actual ownership of a golf course operator. My clients are not golf course operators. Therefore, someone individually or collectively who wants to get a fine golf course at a reasonable price can do so.

As part of the sale there is an inventory including furniture, fixtures, machinery, equipment and merchandise worth today's market about \$10,000.00. The right party or parties have a real opportunity, particularly so if they can deal on cash terms.

To see the course you may go direct to the Franciscan Monastery across the street from the club at Cedar Lake, Indiana. Father Victor or one of his assistants will personally escort you over the course. Should you prefer to contact me as the attorney for the Order, my name is Walter Rojek, 111 W. Washington St., Chicago 2, Illinois, Telephone, Dearborn 2-4479.

MCNULTY IN CHARGE PRO GOLF SALES
WILSON'S NASHVILLE OFFICE

William J. McNulty, for 25 years associated with golf and the sporting goods industry, has joined Wilson Sporting Goods Co. to take charge of the professional golf activities of the company's Nashville office, it is announced by L. B. Icely, Wilson president.

McNulty brings an especially well-rounded background to Wilson. His golfing knowledge extends through personal experience as a caddie, apprentice in the pro shop, salesman, buyer, manager of a branch office, manager of a sporting goods department in a large store, merchandise manager, vice-president, and president of a sporting goods manufacturer.

"I have known 'Mac' for a great many years," said Icely in making the announcement, "and I am sure that his extensive experience in every phase of golf — from caddying as a youngster right on up through the most advanced stages of merchandising while serving as vice-president

and merchandising manager of a major manufacturer — will make him a valuable addition to the entire Wilson organization."

MISTPROOFS EYE GLASSES

"You can't hit it if you don't see it." is the motto of the Mist-Proof Products Co., 165 west End Ave., Brooklyn 29, N.Y., manufacturers of I. R. X. Lenstick, a new formula in handy stick form which when applied to eye glasses, mistproofs the lens and helps the wearer to avoid blurred vision caused by humidity, cold, heat vapors, perspiration and changes of temperature.

DYNACIDE, DUAL PURPOSE COMPOUND

The Wm. Stieh Co., 20 Vesey St., N. Y. 7, N. Y., has developed Dynacide, a new dual purpose soluble phenyl mercury compound for killing crab grass and checking certain types of fungus growth such as dollar and copper spot. One lb. of "Dynacide" in wet or dry application covers 1,000 sq. ft.

NEW INSECTICIDE COMPOUNDS

Two new insect toxicants known as Compound 118 and Compound 497 have been discovered and are being introduced by the Julius Hyman Co., Denver, Colorado. No. 497 is similar to DDT in action with laboratory tests showing effectiveness to be 40 times greater against the common housefly and approximately 200 times greater against the German roach. No. 118 in preliminary

MIXING TOP DRESSING WITH A ROYER

A Royer Compost Mixer has been found to be just the thing for blending assorted top dressing materials for direct application to the surface of golf course greens, according to R. H. Thode and Burt Janis, greenkeepers, respectively at the Jackson Park and Lincoln Park courses in Chicago.

Shown here is a Royer machine which has been in service for more than fifteen years at the Jackson Park course. It is manufactured by Royer Foundry & Machine Co., Kingston, Pa.

SPALDING DISPLAY CARD FOR PROS

This interesting display card with two merchandise "helps" is being sent to all Spalding Golf Pro customers; where information has been secured, the card will have the Pro's name instead of the lettered "Your Pro" as shown on the above sample. The smaller cards shown at the left are suitable for use in either golf ball or golf club display boxes. If you do not receive a set, contact the Spalding district office servicing you.

**INTENSIVE AD CAMPAIGN POWERS
WILSON'S "ISOTROPIC" CAMPAIGN**

Opening with a broadside in the May 14th issue of the "Post", Wilson Sporting Goods Co., is releasing the details to the public of its new Isotropic methods of golf ball construction. The result of long and exhaustive research, Wilson regards their new Isotropic construction as one of the revolutionary advances in golf ball manufacture. Without advertising an unknown by name, distribution of Isotropic

SKINNER

sprinklers of every type for
golf courses

Individual units or complete "tee to green" systems keep your course at its best. Write today for specifications.
The Skinner Irrigation Co., 415 Canal St., Troy, O.

SKINNER SYSTEM OF IRRIGATION

Pioneer and Leader in Irrigation for Nearly a Half Century

balls was made to the pros last fall. Due to the lateness of the season it was decided to withhold advertising until the 1949 season began. Now, according to Wilson's ad mgr., Joe Risolute, the public will get the story in one of the biggest ad programs the golf field has seen. Preliminary ads in GOLFDOM are carrying news of the Isotropic balls and the strong advertising campaign behind it to the pros.

Wm. F. King, gen. sales mgr., wants the pros to know that the Top-Notch balls they now have in stock are Isotropic construction, and are the same balls as they will receive on future orders. However, because their present boxes are without Isotropic identification, appropriate, easy-to-attach stickers with the wording, "Isotropic construction", will be furnished for affixing to the boxes. King stresses, "One of these stickers should be prominently placed on every dozen box of Top-Notches now on display and in stock. It is of utmost importance that this be done, so that when the consumer advertising breaks and players ask for 'those new Isotropic balls',

LIQUA-VITA

The complete Liquid Fertilizer for Golf Greens

No burning in hottest weather — applied with fungicide — cuts labor costs to a minimum.

200 greenkeepers used LIQUA-VITA in 1947; over 500 in '48
There will be a lot more users in '49.

they'll know they're getting what they ask for." After Apr. 1, all boxes of Top-Notch Isotropics will be properly identified.

**WORTHINGTON'S NEW FRONT DRIVE,
 REAR STEER TRACTOR**

The Worthington Mower Co., Stroudsburg, Pa., has introduced a completely new tractor for gang mowers. Front wheel drive, all mowers in front of the operator, rear wheel steering and greatly improved bal-

ance are the highlights of this gang mower tractor development. Seventy-five percent of the tractor's weight is on the front wheels, resulting in increased traction and full utilization of its engine power. The Model F Chief takes 9 gangs where seven were used, 7 where five were used, etc. Added visibility permits closer cutting to obstructions and cuts down on overlap. It will take from one to nine mowers, either balanced on both sides or unbalanced on one side.

NEW PLASTIC COLORED FLOORING

New Vinyl Plastic Colored Flooring and Runner material in five attractive colors is now available for the golf & country clubs for service as heavy duty runners, according to L. E. Warford, pres. and mgr. of MELFLEX PRODUCTS Co. of Akron, suppliers of non-slip, durable Safety Products for underfoot safety and security.

This new Vinyl runner material will be supplied in Brown, Black, Blue, Green and a good fast Terra Cotta Red and in the standard 36" width and in lengths up to

sixty lineal feet. This new colored runner material is made to withstand the severe traffic of cleated shoes in the locker rooms, aisles, etc.

Exhaustive tests show this new Vinyl Runner Material will not oxidize, crack, curl or tear with age. It is unaffected by oil, grease, fats, gasoline, kerosene, alkalis or any ordinary acids. Ink, iodine, paint quickly removed. It can be quickly, easily and most economically cleaned, and it does not require waxing at any time. This new Runner Material is now available for immediate shipment from MELFLEX of Akron.

TORO'S NEW POWER GREENSMOWER

The new 1949 Toro Power Greensmower is now ready for delivery, according to the Toro Manufacturing Corp. of Minneapolis, Minn. The new mower has many major improvements including a new 1.3 h.p. four-cycle Briggs & Stratton engine with a heavy duty gasoline pump; a highspeed eight blade reel that takes over four clips per inch, eliminating all corrugation and ridges; low-slung perfectly balanced weight; and a shorter handle with independent controls to reel and traction.

RULES OF GOLF

At a Glance

(as originally published singly in GOLFING Magazine)

Legal language avoided; rules explained so every golfer can understand them. Separate diagrams for eight zones of play — (1) Tees; (2) Sand Traps; (3) Through-the-Green; (4) Hindrances to Play; (5) Greens, Match Play; (6) Greens, Stroke Play; (7) Water Hazards; and (8) Multi-Ball Matches — plus official wording of U.S.G.A.'s rules, including latest 1949 changes. All cross-referenced.

Road-map folder style; four charts to each side; printed attractively in two colors; enclosed in protective wallet envelope.

An excellent pro-shop novelty item. Golfers will want it to study; to tuck in bag pocket or locker; to settle arguments. *By far the bandiest analysis of the Rules ever published.*

Sold to golf professionals in packages of 20 folders for \$3.00 (15c each); sell to golfers at 25c each. Estimate your season's requirements and order today. Please remit with order; sorry, no COD's. Immediate shipment, post paid.

PAR - INC.

1949 E. 75th Street
CHICAGO 49, ILLINOIS

at 5440 Northwest Highway, Chicago, on March 1 with a complete course equipment show and Open House.

Hundreds of golf course, park and cemetery officials from the surrounding states took advantage of the Open House to view the displays of course equipment and supplies and discuss their problems with manufacturers who were on hand for the show.

The new repair department and storage facilities provide adequate space for equipment display making it interesting and profitable for anyone interested in the industry to visit the showrooms at any time.

The organization will be 25 years old in the summer of 1950. During that time the company has had its ups and downs along with the fortunes of the golf business. Today 23 employees, some of whom have been with the company for 20 years, cater to the needs of the golf course and orna-

mental trade in the Chicago district.

Besides offering Davis Grass Seed and a number of other Davis items the company represents most of the prominent manufacturers of turf equipment and supplies including Toro, Milorganite, Buckner, Armour, Swift, Du Pont and others.

ANT CONTROL BULLETIN AVAILABLE

"Control of Ants in Turf and Soil" is the title of a bulletin written by John C. Schread and Gordon C. Chapman issued by the Connecticut Agri. Experiment Station, New Haven. The bulletin covers the experiments and tests made by the authors with Chlordane. Tables show results of treatment with various concentrations and the summary carries suggested methods of application for effective eradication. Copies of the bulletin (No. 515) may be obtained by writing the Experiment Station.
