

with this same basic chassis is the Dump Roll Trailer which is designed for dirt handling and hauling. Dumping or loading from either side and locking in four positions, it is balanced and designed for easy maneuverability.

All Doo-All-Trailers are designed specifically for the turf trade, giving maximum load capacity without injury to the turf. Perfect balance plus tires which give greater supporting surface between tire and ground, makes this an ideal trailer for course work.

Champion also makes two types of weed killers: WEED-IT which is a selective weed-killer in a concentrated 40% solution, and KILL-ALL, designed to stop all vegetation. Both have been employed successfully for several years.

#### **PENNSYLVANIA ANNOUNCES MODERATE PRICED MOWER**

The Pennsylvania Lawn Mower Division of the American Chain & Cable Company, Inc., Camden, New Jersey, announces for the season of 1949 a new moderately priced mower—the Penna-lawn—with five blades—16" cut—constructed with grey iron castings and crucible analysis steel knives. In addition to the 18" cut Model R Power Mower produced during the past season, there will be a Model T 21" cut—patterned after the Model R. The Pennsylvania Great American—Meteor—Pennsylvania Junior and Trimmer & Edger—as well as the Penna-lawn and both power mowers, will be available in any quantities through Pennsylvania Lawn Mower distributors.

#### **GORDON JONES, NEW BUSINESS PARTNER OF BOB DUNNING**

The Bob Dunning Co., Tulsa, Okla., golf course equipment and materials, was established in March 1948. Founded on a policy of specialized service, success of the first year's operation has made it necessary for the company to institute a program of expansion of both facilities and services. Gordon Jones has been brought into the firm in order that the same high standard of personal attention to the turf problems of the area can be continued. As a result, the Bob Dunning Co. gives way to Bob Dunning-Jones, Inc.

Jones is a graduate of the University of Nebraska where he majored in agronomy and later spent several years with Dr. John Montieth, of the USGA Green Section. He was working on his Doctor's degree at the

Univ. of Calif. when he joined Bob in Dallas, Texas on an Army Airfield turfing program. Since that time he has been in charge of turfing and landscaping work for the Fourth Region of the GAA over a five-state area. For the past two years he has been pres. of the Texas Turf Assn.

Purchases of new property and construction of a new building with a large display room and storage and service facilities will be completed by March 1. Free parking space has been provided and the remainder of the grounds will be turfed and landscaped.

The company's free turf advisory service is an important phase of their operation. Last year turf problems arising from the unprecedented hot, humid weather brought many requests for the service and since time was an important factor a private plane was used to make calls. In this way permanent damage to turf was avoided in many instances and the Dunning Co. reputation enhanced immeasurably.

Excellent service and a comparable sales record have resulted in the handling of many course equipment and material lines on an exclusive basis for the state. Among the many lines Bob Dunning-Jones, Inc. handle are: Toro Mowing Equip., Buckner Irrigation Equip., Champion Cemetery Equip., Iron Age Power Sprayers, Dow Agri. Chemicals, DuPont Fungicides, Armour's Fertilizer, Standard Golf Supplies, Parker Sweepers, McClain Products and others.
