

NEW MACHINE WASHES AND DRIES DRIVING RANGE BALLS

Add a new name to the growing list of equipment developed for the nation's fast expanding golf driving range field. It's the Rapid Range Ball Washer-Drier, being marketed by Walter Ruesch, Skokie Blvd. and Golf Road, Skokie, Ill. The Rapid ball washer is an adaptation of a machine widely used throughout the citrus industry for washing fruit. It is completely automatic in that it feeds the soiled balls into the washing bed, on thru the wringing unit into the drying chamber and out into the storage bins, or trays, clean and ready for play. According to Ruesch, an experienced range owner himself, the Rapid, with

its automatic line delivery of 12,000 clean balls per hour, promises to bring long needed relief from the messy, time consuming and costly makeshift methods the range owners have been using. Complete details of the new machine may be had from Ruesch at the above address.

PUTT-O-MATIC DEVICE

E. F. Bohlen, Box 615, Cheyenne, Wyo., has invented a putting practice device in which the putted ball after entering a 4 1/4 in. aperture, causes an electrical contact to be made in a spring contrivance which expels the ball back to the player. Bohlen is seeking a manufacturing tie-up.
