Great job of stirring up interest in club tournament schedule done by Southern Hills CC, Tulsa, Okla. . . The announcements are clever, colorful and get action. . . Southern Hills Golfers' Guide, as usual, a model of club publicity to tell what's going on. . . The "negotiating scores" alongside each member's name in the membership directory represent a masterful job of handicapping by pro Bill Witherspoon.

And for a very attractive job of a circular for a pro and a fee course you ought to see the one prepared for Herman Uebele at Beechwood GC, LaPorte, Ind. . .

Jack Lindsay, South Bend, Ind., a former asst. to Uebele and now an advertising man, did the job. . . Write Jack for sample.

What Fred Said

John R. Henry and Fred V. Grau ask us to correct Henry's reference to Grau's talk at the Texas-Oklahoma Turf Conference. So to straighten out the record on Grau's remarks: He said that no chemical has yet been developed, to his knowledge, to cure damping off on turf grasses. He referred to calomel and bichloride of mercury and not to Special Semesan, Arasan and Ceresan as the OLD standbys for turf. He remarked that Tersan is not a copper compound but tetramethyl thiuramdisulfide. It is not used for dollarspot or snowmold. Special Semesan and F-531 do not have the same uses as Tersan. Unquote and relax.
