connection which formerly required the use of three or four.

These new fittings are quickly joined in the same manner as previously used for insert couplings. Sections of pipe can be cut to desired length with an ordinary hand saw and fitting inserted. Stainless steel clamps are tightened over the pipe and fitting to draw the pipe down onto the serrations of the insert to assure a positive, leakproof joint. Only tools required are saw and screwdriver, and connections can be completed in less than two minutes.

When Carlon flexible plastic pipe is to be joined to a metal fixture or a previously installed metallic system, an insert adapter is used. One end is screwed onto the metal threads, and then the plastic pipe is slipped over the serrated end and clamped securely. Adapters employ I.P.T., which mate with standard female threads. These new fittings, together with the straight insert coupling and threaded tees, ells and unions, make possible all types of installations with Carlon flexible plastic pipe. All fittings are molded from a single piece of thermoplastic material and are guaranteed against rot, rust and electrolytic corrosion. They are light in weight, can be handled easily, and assure permanent, leakproof connections.

ACUSHNET TITLEIST HIT FOR 435-YD. HOLE-IN-ONE

A demonstration of the Acushnet Titleist ball on the 435-yd. first hole of Hermitage CC, Richmond, Va., produced an ace to the amazement of spectators and the great delight of George Smith, of E. J. Smith & Sons, Charlotte, N.C., Acushnet distributors.

George was showing length and accuracy of the ball by hitting them with the driving machine which is installed in his Cadillac convertible. This drive was caught precisely on the screws, flew, landed and hopped into the cup.

NEW SCORE CARD HOLDER FOR CADDY CART USERS

Chicago area pros report enthusiastic player reception of Scoraid, a new, simplified score card holder which clips on the handle of any caddy cart. Made of rust-proof, lightweight aluminum-plated metal, the device holds cards and pencil handy in ready-to-write position and prevents the card from getting lost or dirty. Priced attractively Scoraid is available from Hawley Products, 2205 N. Kenneth Ave., Chicago 39, Illinois.
