## NEWS OF THE GOLF WORLD IN BRIEF

Couple of matters have eyebrows raised in locker-rooms . . . one is extensive travel of young amateurs who are not blessed with the sort of expense money that is officially approved by the USGA . . . The other subject of puzzled comment is no invitations this year from Inverness to Henry Ransom and Roberto DeVincenzo who won the famed club's invitation tournament in 1951 . . .

There are no finer gentlemen sportsmen in pro ranks than Ransom and the Argentinian DeVincenzo . . . And no more gracious club than Inverness.

**J. W. Scruggs, Seminole (Okla.)** munny course pro, named to assume operational responsibilities of city's parks . . . **Allentown, Pa.,** Junior Chamber of Commerce in drive to collect golf equipment for putting golf instruction program into city's high schools . . . **Los Angeles (Calif.)** County Board of Supervisors leases Lakewood CC 165-acre plant at Long Beach to save it from subdivision.

Never saw a year like this for "golf leagues" . . . Looks like every munny course that isn't already packed has started a golf league of teams from local industries or sponsored by local business houses . . . Smaller town munny course pros and park board recreation directors certainly are on the job . . . Many of the schedules are for 9-hole twilight events.

**Fred Bingham, formerly supt., Norfolk, Va.,** munny course, leases Ocean View 18-hole course from city . . . Bingham improving clubhouse and course, adding night-lighted golf range . . . **Hires Bobby Dunn** as pro . . . City got a good deal and golfers got a competent, conscientious operator of a semi-public course in Bingham management . . . **Robert Trent Jones** designing an 18 and a 9 for city of Norfolk on watershed property in Princess Anne County.

**Derrell E. Brown** building 9-hole semi-public course near Orenco, Ore. . . **Woodmere CC (NY Met dist.)** remodeling to plans of **Robert Trent Jones** . . . **Greene County CC, Waynesburg, Pa.,** offers "package deal" of instruction and weekday play to youngsters of high school age . . . **Duval County** grand jury reported evidence of "laxity and inefficiency in the matter of bookkeeping, auditing and supervision" in

**Robert Moore, ass't. to Jerry Dwyer** at **Albany (NY)** munny course last year, now pro at **Battenkill CC, Greenwich, N. Y.** . . . **Richard P. **"FLEXI-COMB"**

for fairway mowers

- Reduce thatch
- Smoother cut
- Overcome weeds

Begin Flexi-combing early in the season. Comb out accumulated plant material to provide better growing conditions. A thatch layer sheds water, prevents fertilizer from getting down to the soil.

Reduction of thatch by Flexi-combing promotes healthier growing conditions — reduces disease.

Use Flexi-combs on mowers to overcome existing thatch and prevent its reoccurrence.

Flexi-combs fit Toro and Worthington mowers . . . Combs are mounted permanently on mowers — easily locked out of operating position when their use is not required . . . Improved design provides easier depth adjustment.

## TURF that Speaks for Itself!

### MILORGANITE HELPS BUILD BETTER TURF AT LOS ANGELES COUNTRY CLUB

Bill Beresford, the able Superintendent, supported by his Chairman, Mr. C. C. Simpson, has produced exceptional greens with Milorganite and is developing outstanding fairways. The program for 1952 includes sodium arsenite spray to kill fennel and crab grass, followed by Milorganite at one ton per acre. This combination did an outstanding job in 1950 on two test fairways. Their program will give members of the club fairway turf the equal of any on this continent.

No other clubs are so matched and so balanced. That's the reason 30% of men who play Kenneth Smith clubs shoot in the 70's, whereas the national average (all makes of clubs) is only 2½% (from an impartial, national survey).
