Buckners, after serving for many years as manager of their New York office, and with a wealth of sales experience gained during his 14 years as manager of the Transite Pipe Department of Johns-Manville Sales Corp. in their San Francisco offices.

Buckner plans immediate expansion of their line, with emphasis on product development and a streamlining of current models.

MICHIGAN PEAT COVERING COUNTRY ON GOLF CLUBS

Michigan Peat, Inc., 267 5th ave., New York 16, has a new folder describing use of its high nitrogen peat from bogs at Capac, Mich., on golf courses from Washington, D. C. to Los Angeles, and from northern U. S. to the deep south. Prominent supts. are quoted as having used the material in constructing new greens and reconditioning old greens. The material is being extensively used in 1/3 sand, 1/3 soil and 1/3 Michigan peat for top-dressing after greens are aerified and soil plugs brought up during aerification are removed. Supts. have reported very satisfactory results.

HYPER-HUMUS DESCRIBES TOPSOIL MAKING

Hyper-Humus Co., Newton, N. J., whose product has been widely used on golf

courses for more than a quarter century, has issued a new circular telling of the use of Hyper-Humus in converting subsoil into topsoil. The mixing formula and process are pretty well known among supts. Write for circular.

MULCH-VAC, NEW LEAF PULVERIZER

Atwater-Strong Co., Atwater, O., reports a lively demand for their recently marketed leaf mulching machine, Mulch-Vac, which sucks up wet or dry leaves,

pulverizes them and blows the mulch back on the turf or into a bag. The 6 hp model, shown above, is self propelled, cleans 3 ft. swath. A larger, 25 hp tractor drawn model cleans a 6½ ft. swath. Full particulars from the company.
