

established control and preventive Caloclor. The spotlight will be shared with Cadminate, a fungicide for the control and prevention of Dollar Spot, Copper Spot, and Pink Patch. Mallinckrodt sales and technical personnel will be in attendance.

WEST POINT PRODUCTS' exhibit of equipment for special purpose turf areas will be in Booths 44-45. The Aerifier line will be represented by the tractor-drawn F-G model, the self-powered G-L Aerifier and the new self-powered Junior G-L. The G-L Aerifier will be equipped with the new Thatch Spoons. All machines will show the improved design Flexi-press. Aerifier owners will be invited to examine recent improvements which can be added to their old machines. Vegetative planting of improved grasses is on the increase. See the West Point specialized tools for this work. Turf pluggers are available in two sizes. These tools are handy for repairing tees and greens also. The most up-to-date models of the Flexi-comb for fairway mowers and the Noer Soil Profile Sampler will be on exhibit. A feature of the West Point exhibit is a new piece of specialized turf equipment — the "Verti-cut". This machine is a vertical cutting mower to remove thatch from greens and tees. A continuous film will

show operation of all the West Point turf equipment. Tom and Tony Mascaro will be on hand to explain details of all the equipment.

The UPJOHN COMPANY's exhibit in Booth 9 will feature Actidione, the new antibiotic discovered and developed by the Upjohn Company for use in the treatment of such turf conditions as Dollar Spot, Melting Out, Snow Mold and Brown Patch. Harold J. Maloney will be in charge of the exhibit.

HERSHEY ESTATES will be located in Booth 19, displaying their product known as HERSHEY'S Ko-K-O Organic Soil Conditioner. James Morrison and J. C. McCleaf, sales manager, will be in attendance.

RAINY SPRINKLER SALES' Booth 15 at the conference will display their complete line of both Rain Bird and Nelson golf course irrigation equipment. They will illustrate valves, keys and fittings for underground sprinkler installation as well as the small pop-up type sprinklers often used in tees as well as the large sprinklers used in irrigation of fairways. Personnel attending and in charge will be Ed N. Holland and R. J. Schneider, asst. mgr., from Rainy Sprinkler Sales, as well as Crawford Reid from National Rain Bird Sales & Eng. Corp. of Azusa, Calif.

PGA SENIORS TOP OFFICIAL FOURSOME

Fulmer & Cole photo
Officers elected at the Dunedin annual meeting of the PGA Seniors obviously view their responsibilities without alarm. From left to right are Marty Cromb, second vp; Hugh Bancroft, first vp; Otto Hardt, pres.; and Willie Whalen, sec. The Seniors' championship and the rest of the veterans' week was a gala reunion of old timers whose work, high principles and fidelity to the interests of their clubs and the game have made golf a substantial factor in Americans' pursuit of happiness.
