IT'S EASY . . . IT'S ECONOMICAL  
. . . IT'S EFFECTIVE

Algae, water weeds, and other water growths create odors, breed insects. Now, you can eliminate this problem with Parko Algaecide, the aquatic weed killer that has been proven in use by camps, hotels, and other institutions. Simply spray Parko Algaecide on the water surface as instructed — that's all there is to it. One treatment has a residual effect for up to 10 years.
