## NEWS OF THE GOLF WORLD IN BRIEF

Springfield (Mass.) News feature story says that a caddie in that area could make \$84 a week by carrying double two rounds a day . . . Ole Clark, pro at Longmeadow CC, estimates that \$20 to \$25 weekly is about what a good caddy in that district makes . . . Others estimated average at \$40 a week . . . Albert Beauchesne of Wiltonville, Conn., and Stuart Siegmund, Dudley, Mass., building 9-hole course at Wiltonville, Mass., to open next June . . . Oak Hill CC, Goochland, Va., begins building 9-hole course . . . Sidney Banks, owner, Cavalier Yacht & CC, Virginia Beach, Va., offers to put up \$15,000 for an Open and \$5000 for a preliminary pro-am on the circuit after the Masters.

Decided success of second National Seniors' Open at Esmeralda course, Spokane, Wash., and entries for Senior Open to be played Oct. 21-23 at Atlantic City (N. J.) CC, indicate big boom current in senior golf . . . Laurel Pines CC (Washington DC dist.) opens first 9 . . . Ft. Dupont public course in Washington area opens 9 of its rebuilt holes.

Again proving that picking golf champions is toughest sports forecasting job: Not one of the 74 prominent golf writers in Golfing magazine's third annual poll named Charley Coe as a possible winner of the National Amateur . . . None of the writers picked Tommy Bolt to win the Open . . . Twelve of them picked Finsterwald to win the PGA . . . Ford was picked

Herb Graffis

by 18 to win the PGA . . . Venturi was favorite to win Open and Ward, the Amateur, both being named by 32 writers.

Look for the All-Star golf television program sponsored by Miller High Life to do some smart campaigning for faster golf play in films of matches recently made . . . Bad habit of tedious surveying of putts by several of the pictured pros has been a poor

example to set before golfers watching TV . . . On TV cowboys and Indians ride 5 miles up and down the canyon, shoot and kill a couple of dozens humans and horses and save the beautiful maiden in less time than it takes some guy to fuss around with a putt, then miss it.

Westchester County, N. Y., to build 18 on western part of Mohansic Park . . . Jack Banner to build course at his Banner Lodge resort in Moodus, Conn. . . . John Walter, Detroit News golf writer and pres., Golf Writers' Assn. of America, continued instruction series, "Tips from Our Pros," through most of summer giving local pros good publicity . . . Big year for syndicated golf instruction features with Tommy Armour material, top-priced and top-rated of the teaching copy, having biggest year to date . . . Armour feature runs during fall and winter in leading papers in South and Southwest . . . Mac Divot, golf serial strip, has caught on in good shape . . . Chicago Tribune-N. Y. News syndicate distributes both golf features.

With the 20 per cent tax assessments for new building and improvements repealed, and golf already riding a big building wave, the blueprint will become a patented overtime working tool in 1959. Some idea of what lies ahead may be gleaned from reading what manufacturers say about next year (page 33), the architects' appraisal of what the tax repeal should mean (page 36), and the National Golf Foundation's report on the game's growth (page 87). It all adds up to a very busy 12 months, both behind and ahead.

says John Ling,  
Supt., Lake Shore Golf Course  
Rochester, N. Y.

After viewing the outstandingly beautiful Lake Shore Golf Course, we couldn't resist asking Superintendent John Ling how he did it. Here's what Mr. Ling had to say:

"In my 26 years of experience growing golf course turf, I have never found a better fertilizer than Agrico. It has developed deep roots and a good solid turf for me. This year I used AGRICO for TURF 10-6-4 with UREA-FORM because of its longer lasting qualities. I know it will produce for me as all the fine AGRICO products have in the past."

"Take this pointer from John Ling—and top superintendents everywhere—follow the AGRICO plan for healthier turf, better greens, tees and fairways. Now's the time to plan a great Spring feeding program with AGRICO.

Speaking of Jock Hutchison: Delay in electing him to PGA Hall of Fame plainly showed that something was wrong in method of naming the pros for this honor . . . ## Poor Seedbed Soil Properties Eat Up Turf Maintenance Budgets

A major reason for poor tees, fairways and greens lies in the properties of the seedbed soil. Proper attention to the seedbed in new construction will drastically reduce future turf maintenance headaches. Rebuilding the seedbed in renovation operations frequently goes straight to the heart of the problem.

Improving your seedbed soil won't solve all your maintenance problems—but it does give you *the best groundwork on which to build.*

Send today for our new Bulletin S-57. It pictures and describes the Royer line—the Shredders that have been proved the best for new construction, renovation and maintenance.

# "MY COMPACTED GREENS CORRECTED WITH Terra-Lite® VERMICULITE"

**FORMER RUN-OFF  
HAS STOPPED. TURF  
IS SPRINGY, BALL  
RETENTION GOOD.**

...says Dave Mastroleo, Supt.,  
Addison Golf Club  
Addison, Ill., 3-year  
Terra-Lite user.

Most soil is not perfect for turf, but Terra-Lite conditions any soil to perfection, permanently. Terra-Lite loosens and aerifies clay soil, gives body and water retention to sandy soil. The millions of air-and-water holding cells in Terra-Lite hold and feed water and nutrients to roots, promote a dense root system and thick grass—no run-off in wet seasons, no "bald spots" and starved roots in dry weather.

## LASTING BENEFIT

Terra-Lite is inorganic, permanent as the earth itself. When you install Terra-Lite you get the improvements you want, and you get them for good!

**RUFUS the RETRIEVER** . . . Some dogs retrieve quail, pheasant, etc. but Rufus, a scottie owned by E. K. Patterson of Greensboro (N.C.) CC (above), has the unique canine hobby of retrieving golf balls. Patterson discovered that this spring when he strolled the Greensboro fairways with Rufus, hit a shot into the rough and was somewhat surprised to see the dog retrieve not only his ball but a couple others. Thereafter Rufus was turned loose in the rough. So far he has come back with about 200 balls, 15 per cent of which have been practically new. In a recent Carolina Junior tournament, Rufus went absolutely berserk, finding about 50 balls that had been given up for lost.
