Neilson Produces Turf Tire

Neilson Wheel Co., 1607 N. 27 st., Milwaukee 8, Wis., is producing a new turf-protecting tire for golf cars. A low pressure tire, with 8-in.

tread, it is said to glide smoothly over turf without bruising grass. Complete wheel and axle assemblies, including chrome hub caps, are available with the 2-ply turf-glide tires. Full information on specifications can be obtained by writing to the Neilson firm.

Player Gives Ralph Bond's C-52 Turf a Big Plug

When Gary Player and Arnold Palmer played a recent exhibition at Odana Hills, West Madison, Wis., Player, a gentleman farmer, declared that the greens at Odana compared favorably with the best he has seen at any municipal layout in the world. Since the putting surfaces at the Wisconsin course are planted to Old Orchard C-52, Ralph R. Bond, owner of the Old Orchard Turf Nurseries in Madison, stepped up and took a few bows, after hearing Gary's endorsement.

Cupit, Young Circuit Star, Signs with Etonic

Young Jack Cupit, who has made such a big splash in his first year on the circuit, has been named a member of Etonic's expanding pro advisory staff, according to Bob Eaton, vp of Charles A. Eaton Co., Brockton, Mass. Cupit, winner of this year's Canadian Open, had finished in the top 10 nine times in 19 PGA tournaments through early August. A onetime U. of Houston star, he won 39 tourneys as an amateur.

Onox Available in Spray Bottles

Onox, described as a skin-toughening solution for treatment and prevention of athlete's

foot, now is available in 6-oz. spray bottles. The manufacturer, Onox, Inc., Dept. 5-X, 121 Second St., San Francisco 5, suggests that in active cases of athlete's foot golfers may want to keep a bottle in their lockers as well as in their homes. Onox is shipped one doz. bottles to a case. Information on quantity discounts, available to pros, plus medical opinions on the effectiveness of the product are available upon request.

The firm of Ellis, Arndt & Truesdell, with offices at 614 MacArthur Bldg., 114 W. Union st., Flint 2, Mich., has been formed to engage in the design of golf courses, park facilities and recreational buildings.

Al Robbins Enterprises, PO Box 887, Evanston, Ill. has added the new Dymo instant label maker to its line.

Sod-Master Produces New Edger, Topdressing Power Spreader

Sod-Master, 3456 N. Washington ave., Minneapolis, has started delivery on two new pieces

of equipment. Edge-Rite represents, what is claimed, a new concept in an edging tool. It has a vertical, oscillating blade rather than the conventional circular, spinning blade, making the machine safer to operate. Edge-Rite cuts a continuous sod strip, easily gathered after cutting. All controls are mounted on the handle bar and there is a single adjustment for depth and angle of cut.

The Mete-R-Matic is said to be the first powered equipment designed for spreading topdressing on greens, etc. The material, placed in a hopper, is carried to a rotating brush by means of a treadmill. The brush drives the topdressing downward, imbedding it in the root system. A metering device regulates the amount of spread. Powered by a gas engine, the Mete-R-Matic moves on six pneumatic tires and is controlled by two levers located near the handle bar.

Robinson Joins Sales Staff of Rainy Sprinkler Division

Rainy Sprinkler Sales, a div. of L. R. Nelson Manufacturing Co., Inc., Peoria, Ill. has named B. P. Robinson asst. sales mgr. of its Southwest dist. Robinson, an agronomist with a Ph.D from North Carolina State College, has served as a regional director for the USGA green section and also did special turf research work at Tifton, Ga. for two golf assn., the University of Georgia and the USDA. Prior to joining the Rainy Sprinkler staff, Robinson was part owner of Kilgore-Robinson Supply, Inc., handling turf and irrigation supply equipment in Birmingham, Ala. His headquarters now are in Gainesville, Ga.

previously was a K & M salesman in the St. Louis area . . . Robert W. Gundlach has been appointed merchandising manager for distributor sales in the pipe sales division in Ambler.

New Charger is Companion Piece of Exide Golfer-48 Battery

A fully automatic charger for batteries used in electric golf cars has been developed by Exide Industrial div. of The Electric Storage Battery Co., Philadelphia. It is designed as the power mate for the new Exide Golfer-48 battery and can be used to get top performance from any other make of 24- or 36-volt lead-acid battery used in golf cars. It is said that the Exide charger can keep the 48 delivering from 9 to 30 per cent more electrical energy than any other battery used in golf cars over a predicted minimum life span of 48 months. The charger can be moved around and plugged into any 110-volt alternating current outlet. It performs automatically after being connected to a battery and power source and the switch is turned on.

K & M Sales Appointments

George Kwachak, Carmichael, Calif., has joined Keasbey & Mattison Co., Ambler, Pa., as a sales rep in the San Francisco pipe dist. . . Andrew J. Buford, St. Louis, has been named merchandising manager for agent sales in the asbestos-cement pipe sales div. in Ambler. He

Second Reward for Jerry

George Dawson (left) of A. G. Spalding & Bros. gave a special bonus check to Jerry Barber after the latter had defeated Don January in a playoff for the PGA Championship at Olympia Fields (Ill.) CC late in July. Barber was the second Spalding consultant to win the big one in 1961, following the example of Gene Littler, who won the USGA Open in June.

Mallinckrodt's Green Questionnaire

Mallinckrodt's Chemical Works, Mallinckrodt's St., St. Louis 7, recently sent a questionnaire to supts. throughout the country asking them about the maintenance of the greens and inquiring as to the major turf disease problems in their areas. Offers of free literature to aid in the care of greens also was enclosed in the mailing.

Consolidated Pipe Installation Data

Installation and spec data on rigid, unplasticized Polyvinyl Chloride (PVC) pipe and fittings is contained in an eight-page booklet just released by Consolidated Pipe Co., 1066 Home ave., Akron, O. The booklet has charts showing maximum working pressures at raised temps. for normal and high impact PVC pipe, recommended support spacings for installations and corrosion resistance information. The booklet can be obtained from Consolidated.

Award for Hotze Catalog

Mead Papers, Inc., Dayton, O., recently presented an 'Award of Merit' to Henry Hotze and Sons Co., St. Louis, golf bag manufacturer, for its 1961 catalog. The catalog, said the award, was distinguished by "fine craftsmanship and outstanding skill in the graphic arts."

Hornung's Pro Golf Sales in New Building

Hornung's Pro Golf Sales, Inc., is in its new building at 41 E. Bank st., Fond du Lac, Wis.,

Offices, display room and warehouse are designed and stocked to maintain Hornung's reputation of shipping pro shop merchandise to pros the same day orders are received.

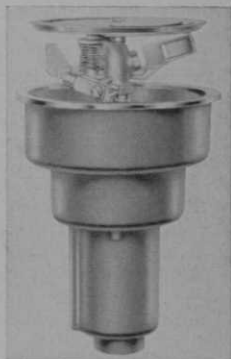

Pros Get Gilison Catalog

According to John W. Glass, sales mgr., Gilison Pro Shop Div., ox 873, Dunedin, Fla., copies of the catalog, "Touring Pro Sweaters", have been mailed to pros. Several new styles of the Gilison sweaters are described and the entire line is available for fall delivery.

Skinner Designs Two New Pop-up Sprinkler Heads

Skinner Irrigation Co., 1411 Water st., Troy, Ohio, has designed two new pop-up rotary

sprinkler heads for use on manual and automatic underground systems. Both, the UR-2 Full Circle and UR-2-PC Part Circle are constructed so that the complete assembly is removable from above ground without digging or removing the case from the riser. The models are spring loaded for positive closing when pressure is turned off, have sand-resistant bearings and are constructed entirely of brass, bronze and stainless steel. There are several nozzle choices and the heads have an adjustable stream diffuser pin that reduces diameter of coverage.

The Part Circle model covers any arc from 20 to 360 degs. through hand pre-setting of reversing rings.

**Brunswick Combines Sports Divisions
in a Single Department**

Brunswick Corp. has integrated its three sports equipment divisions under the name, "Brunswick Sports", with a realignment of the sales force and executive personnel. This takes in the MacGregor Co., the golf and athletic equipment firm that formerly had its headquarters in Cincinnati. Heading Brunswick Sports is F. E. Troy and his administrative aide is Lawrence (Casey) Peifer, who formerly headed the parent firm's business development board. MacGregor will continue to maintain a production unit in Cincinnati and is readying a new \$1 million golf ball plant in Covington, Ga. Headquarters of Brunswick Sports is 623 S. Wabash in Chicago.

Peifer and J. H. Asthalter, marketing vp of Brunswick Sports, have been conducting a sales training program for personnel of the enlarged organization. The division's director of merchandising and marketing services is Mark Cox. William H. Ford is in charge of advertising and promotion. Besides him on Cox's staff are H. J. Wilkens, design and development; James T. Butz, golf; Frank A. Koegel, shoes, gloves and protective equipment; Paul Gamm, athletic clothing and inflated goods; John Anderson, hunting clothing and fishing tackle; T. F. Lindsay, roller and ice skates and recreational games, and D. F. Horton is the purchase

Tony Likes This One

At Glenwoodie (Ill.) G & CC, an International 340 Utility tractor handles practically all the major mowing. According to IHC, Supt. Tony Kozlowski especially likes the torque amplifier since it keeps the tractor from bogging down on grades and prevents wheel spinning which would tear up turf.

coordinator of sport resale items.

R. D. Rickey, divisional vp and veteran MacGregor executive, continues as professional golf sales mgr. L. M. Nelson directs promotion of the pro golf section and heads MacGregor's advisory staff. Other firms in the Brunswick Sports group are Red Head of Chicago, manufacturer of hunting and fishing clothing and related accessories, and Union Hardware of Torrington, Conn., and Ware, Mass., manufacturer of roller and ice skates and golf shafts.

Wyandotte's Ford Division Publishes Folder on Turface

A full-color, four-page folder (F-6547) describing the soil amendment, Turface, produced by Wyandotte Chemicals' J. B. Ford div., Wyandotte, Mich., can be obtained by writing to the division's office. Originally developed as a topdressing, the use of Turface has been extended to nursery and greenhouse use and to conditioning of trees and shrubs. A calcined mineral aggregate, Turface is said to help plants develop sturdier, healthier root structures by keeping moisture reserves at root levels. It also aerifies soil and prevents compacting, even of gummy soils.

Light in "Swing-Chronizer" Helps Golfer Trace Faults

The "Swing-Chronizer", engineered by Burgess Battery Co., Freeport, Ill., and which is attached to the shaft, is said to be the only practice device that identifies the moment of explosion in the swing by both light and sound. Centrifugal force exploded by the uncocking of the wrists activates the swing-light and an audible click is heard. In using the device, the Burgess firm points out that the golfer can locate and correct faults and put his pro's teaching advice into correct practice. The Swing-

Harry Pezzullo, Illinois PGA pres. with "Swing-Chronizer".

Chronizer has a dial that can be calibrated for different power requirements for both woods and irons. It is finished in chrome and is powered by two small batteries.

Aqua-Dial Has New Line of Pop-Up Spray Heads

The Aqua-Dial Co., P. O. Box 1325, Newport Beach, Calif., announces a completely new line of pop-up spray heads. They include full and part circles, short and long body models, and stream spray heads for low water volumes. Special features are a non-seizing adjusting screw for complete control from full flow to complete shutoff and a Buna N "O" ring which forms a positive seal.

Jordan's Rainy-Day Runner

B. H. Jordan Co., 64 E. 8th st., New York 3, N. Y. markets a rainy-day runner creped for soft carpet-like resilience at a low throw-away price. It comes in rolls of 1,000 ft. and can be imprinted or colored to suit the purchaser. Samples are available from B. H. Jordan.

Toro Service Manager Suggests Daily Check List

Marvin T. Elstad, service mgr. of Toro Manufacturing Corp., Minneapolis, Minn., lists seven things that should be done daily in order to get more mileage out of grass-cutting machinery. Briefly, they are: 1. Check for loose nuts and bolts; 2. Check belts and chains; 3. Clean all mowers; 4. Store them properly; 5. Check oil level in crankcase each day and change oil after every 20 to 24 hours of operation; 6. Consult lube guide for care of fittings; 7. Check gear cases, esp. lubrication level. Elstad also recommends investment in the proper tools to handle daily servicing since pliers and screw drivers, etc. not only are inadequate but can damage equipment.

Sta-Put New Entry in Putter Line

"Sta-Put" putter made by Standard Tool & Die Co., 1931 N. Broadway, Los Angeles 31, Calif., is said to be dynamically designed and balanced to enable the player to always strike the ball in the center line of the shaft. Another feature is a directional line marker on the head that aids in guiding the backswing and follow-through. The Sta-Put conforms to USGA rules, the manufacturer says.
