

Put Billions of Workers into Your Soil!

Living bacteria, the workers in your soil are major contributors to superior turf! This working force digests your application of plant foods and fertilizers; converts them into a form that will be readily used, resulting in a healthier more vigorous growth.

The controlled composting of "True Organic", DIGESTS the chicken, cow manures and activated sludge into a Non-Burning plant food and soil conditioner. The countless billions of living organisms that are produced during composting are preserved by Air Drying at safe temperatures.

"True Organic," rich in minor elements, secondary and major plant nutrients, reduces leaching and improves your soil's condition.

Flat Charge For Cars

A charge of \$37.50 per car per year is made on the community's 100 privately owned electric golf cars to compensate for wear and tear on the course. The pro shops keep 16 of these type cars in constant use as rentals.

With a backlog of course experience and association with "names" in the golf world, the Webb firm is in an excellent position to continue to develop entire towns and housing developments which include golf courses. Already planned are courses for complete cities to be developed near the retirement communities, for a 4,100-acre ranch the Webb firm is developing at Santa Barbara, Calif. in association with Henry Crown, and for the 15,000 acres to be developed as a complete city in association with the Humble Oil and Refining Co. near Houston, Texas.
