## TILE-LIKE RAMUC\*POOL ENAMEL steps up attendance... makes maintenance costs dive!

Ramuc Enamel's tile-like finish and fade-resistant colors are proved attendance boosters. "We specify Ramuc Enamel for swimmer appeal, beauty, easy cleaning, long wear," says City of Austin, Texas' Joe Prowse, Jr. (Austin Recreation Department). The Lake Club of Wilton, Connecticut, ("The Executives' Club") reports: "Ramuc retains its color and glossiness remarkably well."

Thousands of managers of other commercial and public pools echo the same sentiments. Ramuc Pool Enamel saves money, because it *keeps* a pool attractive and cuts down on upkeep. The beautiful tile-like finish discourages the build-up of dirt and algae. It's easier to clean. Pastel colors promote safety by increasing underwater visibility.

Send us your pool's dimensions, tell whether it's metal, concrete or plaster, and the type of paint now on pool. On receipt, we'll send, *free*, color chart, 32-page Handbook on Painting Pools, and specific advice on your pool.

## new ROTOR POP-UP concealed turf sprinklers

Rain Bird's outstanding quality makes it the fastest growing line of turf sprinkling equipment — *in the world!* Complete dependability coupled with stand-out performance is why each year, more and more golf courses throughout the country are being equipped with Rain Bird sprinkling equipment. The new Rotor Pop-Up sprinklers — ideal for green and fairway alike — are fully adjustable and can be disassembled without removing the case from the ground making maintenance a simple matter. Wearproof bearings, superb craftsmanship, unexcelled design and more than 50 years of experience are reasons for the established popularity of this fine line of turf sprinkling equipment.

Brookhaven CC . . . This is the 14th year for the Amputee event, according to Dale Bourisseau, Assn. secretary, P.O. Box 9426, Solon, O., who handles the entry blanks . . . Golfdom gets occasional kicks from sectional, state and even national tournament sponsors for not publishing their dates and other information . . . In many cases the publicity isn't used because the releases are not sent out far enough ahead of the time the tourneys are to be played . . . We should have these at least six or seven weeks prior to the actual tournament dates.

Many people aren't aware of it but the Pacific Northwest Golf Assn., founded in Tacoma in 1899, claims to be the second oldest of its kind in the U. S. . . . Until recent years it was the only international association in the world, being affiliated with the Victoria, B. C. association . . . It has 80 member clubs, sponsors joint Men's and Women's tourneys to promote the family golf vacation idea, has a handicap and course rating system . . . It also makes periodic surveys of club operations, and sponsors a caddie education program which currently is sending 14 youngsters to school . . .

Its offices are located at 710 Cherry St. in Seattle.

# MILORGANITE Now in 50 lb. Bags

**For Greater Convenience  
Lower Handling Costs**

For Easier Handling  
**MILORGANITE**  
In the New 50 lb. Bag

## ONE USER REPORTS:

1. Two men now unload a 40 ton car in about the same length of time *three men* used before.
2. Less Breakage — only 3 bags broken out of 1600 in last car.
3. Less Floor Space needed because lighter bags can be stacked higher.
4. One Man's Time Eliminated in Fertilizer Application. (It used to take 2 men\* to raise one 80 lb. bag to hopper of Belt Spreader. Now, the operator loads it by himself.)
5. Less Fatigue — Ease of handling the new 50 lb. bags now more than compensates for the extra number of bags per ton — from the fatigue standpoint.

\*One Parks Dept. rules that 2 men have to handle any container heavier than 50 lbs. Bagging Automation is most economical with 50 lb. bags.
