

Walter P. Dickinson, (r), sales mgr. of Royer Foundry & Machine Co., Kingston, Pa., awarded the No. 1 certificate to Ralph Cook, owner of Park & Turf Equipment Co., Anaheim, Calif., who led the world in Royer shredder sales in 1961. Award was made at GCSA Convention.

New Distributing Company Formed

Green-T-Distributing Co., P. O. Box 6091, Austin 21, Tex., and 538 Fulton, Canton, Miss., has been formed by Dan Rawls and Sam Lati-

mer, Jr. The new company serves as nationwide distributors for golf market products and has started selling activity with several items including the new Medalist Golf Car (photo). Rawls is in charge of the Austin office and Latimer of the Canton office.

Assistant at Spalding

Robert C. Friese has been named assistant merchandise mgr. at A. G. Spalding & Bros., Inc. He formerly was an assistant pro at the Longmeadow (Mass.) CC and has been affiliated with Spalding for 10 years. Besides serving at Longmeadow, Friese was an assistant pro at Westover AFB while in service.

AUGUSTINE ASCENDING ELM

a new generation of elm, modern as tomorrow... strong, vigorous, healthy!

IDEAL FOR GOLF COURSES!

Hundreds of Clubs Have Had Outstanding Success When Planting for Specific Purposes:

- Traffic Control: to define fairways and encourage golfers to play in their own fairways
- Definition of greens
- Screening
- Beautification of the course
- Shade

The Augustine Ascending Elm is just 40 years old. It is a tetraploid mutation with 56 chromosomes, twice as many as the typical American elm. Both field experience and scientific inoculation tests have shown this healthy tree to have a marked resistance to the attacks of insects, fungi and viruses. We have received no proven evidence, in all this time, that any Augustine Ascending Elm has ever suffered or died from Dutch elm disease so you can plant and enjoy its unmatched beauty with confidence!

CONVENIENCE: a magnificent tree whose columnar shape tends to minimize the difficulties of making shots under or around it.

BEAUTY: majestic, vertical form is distinctively architectural. Large-leaved, rich green foliage provides ample shade, yet the tree's unique structure allows more sunlight to reach the grass more hours per day, thus promoting a thick lawn right to the trunk base.

ADAPTABILITY: narrow, upright shape and down-growing root structure permit close planting for windbreaks or enclosures. Perfectly suited for lining fairways and roads, and for setting off greens.

RAPID GROWTH: just 5 years from sapling to tree.

WE HAVE A SPECIAL OFFER TO GOLF CLUBS—WRITE FOR QUOTATIONS TODAY!

Lorne A. Cameron President & Gen'l. Mgr.

Electric and Gas Models in Columbia's 1962 Pargo Line

Columbia Car Corp., 220 Dalton Ave., Charlotte, N. Car., has announced its "new-in-sixty-two" Pargo "F-500" electric powered car with

a 1½ h.p., 36 G.E. motor, and the Pargo "F-600" gasoline golf car with a 7 h.p., air-cooled Kohler engine. Bodies are of fiber glass or metal in future-flow styling. New engineering and design features contribute to the safety, comfort and service dependability of the new cars and to operating ease, according to Pargo makers. Literature including specs can be obtained from Columbia Car.

Lindsay Named Jacobsen Consumer Products Manager

Jacobsen Manufacturing Co., Racine, Wis., has announced the appointment of John R. Lindsay as consumer products mgr.

Lindsay joins the Jacobsen organization after 15 years with the Hot-point div. of General Electric Co. He served the last three years as field dist. mgr., previously having been product planning mgr. for the kitchen appliance depts. Lindsay is a graduate of the University of Notre Dame with a B. S. degree in Electrical

Engineering. He replaces Frank C. Ranney who died last July.

American Mat Adds Tile

Two sizes of Rippletone commercial floor tile and industrial tile have been added to the lines of American Mat Corp., 1802 Adams st., Toledo 2, O. The slip- and wear resistant tile is now available in 24 x 24 ins. and 12 x 12 ins., in six colors and two thicknesses, ¾ and 3/16 ins. Literature can be obtained by writing to this company.

Morning Deposits of All Mail Means Better Service

Fish, Willey Promoted by Toro Corporation

Toro Manufacturing Corp., Minneapolis, has appointed Verne Fish to the post of product mgr. of institutional power mowers, and Charles T. Willey to product mgr. of Toro vehicles. Fish

Verne Fish

C. T. Willey

has been a field mgr. for four years, having joined the firm in 1954 in the ad dept. He is a graduate of Bradley U. in Peoria. His replacement in the field service dept. is Richard Danielson.

Willey has been a district marketing rep in Area III (Midwest) for Toro since 1957. In his new job he is responsible for programming, sales and distributor education for the company's vehicle line which includes the electric and gas Golfmaster golf cars, Workmaster utility car and Caddymaster golf cart. John Huston succeeds him as district market rep.

Bleecker Named Purchasing Agent for K & M

Edwin W. Bleecker has been named purchasing agent for Keasbey & Mattison Co., Ambler, Pa., succeeding Hugh M. Carleton, who has resigned. K & M manufactures asbestos-cement pipe and industrial asbestos products. Bleecker has been with the Ambler firm since 1959 as an architectural rep and formerly was with Armstrong Cork Co. as a salesman. He is a graduate of Trinity College, Hartford, Conn., and served two years in the Army as a ground radar specialist.

Develop Tank Lining

Broyhill Co. of Dakota City, Neb., in conjunction with Gates Rubber Co., has developed a revolutionary process for the rubber lining of tanks, thereby making such tanks available for sprayers and fertilizer equipment. Neoprene rubber vulcanized in steam has made this possible.

Two new accessories for the gas-powered Cushman Golfster now are available. They are a windshield and a surrey top which can be obtained from Cushman Motors, Lincoln, Neb.

**Bristol Introduces Advisory Model
"Custom" Woods and Irons**

Bristol Pro-Golf, Inc., Melrose Park, Ill., features newly developed Advisory Model "Custom" clubs as a head-

liner in the pro-only 1962 line. The clubs are custom fitted to the individual golfer (as prescribed by the prof) at no extra cost. To assure proper feel and balance in the tailored fitting of the new "Customs", new

manufacturing techniques have been perfected. "Custom" clubs have the new True Temper "Pro-Fluted" shafts, new square-toed "Spade-Blades", and durable ebony Dur-O-Lon finish on the impregnated persimmon wood heads. For complete data, write Bristol Pro-Golf Inc.

**Jacobsen Manufactures Electric
Companion to the Greensmower**

Jacobsen Manufacturing Co., Racine, Wis., is marketing a new electric Greensmower. It supplements the company's gas-powered Greens-

mower that is used so widely in the U. S. and overseas. The electric unit will run three hours under normal cutting conditions without recharging. It has a 22-in. cutting width, rheostat controlled weight to give positive and smooth cutting. There are nine 5-in. dia. heat-treated, steel blade reels. A plastic grass catcher is standard equipment with the electric Greensmower.

**New Jayfro All-Nylon
Golf Practice Cage**

Jayfro Athletic Supply Co., P. O. Box 1065, New London, Conn., is producing a new model #G-I golf practice cage. The new model has a 9 x 9 ft. heavy duty #210 Denier all nylon backing and a two-piece backing sewed together for double strength. Included is a baffle sheet-target 8 x 8½ ft. suspended in front of backing. Standard model is 12 ft. deep. Other cages are made to desired specifications.

Give New Range Ball Machine Heavy Workout at Dunedin

Pros had an opportunity to see for themselves that Ball-O-Matic, the automatic washing, storing, counting and dispensing practice ball machine, delivers the goods, during the recent

Bruce Jacobs (r) gives GOLFDOM editor, Herb Graffis, a peek at Ball-O-Matic's insides.

PGA merchandise show at Dunedin, Fla. They put it through all the tests, studying its mechanism operation from the coin release through washing, storing and adjustable counting and dispensing. "This wasn't the machine's first baptism under heavy pro test firing," said Jerry Jensen, Ball-O-Matic's pres. "That continuous eight-day barrage of testing and questioning not only convinced a lot of pros but satisfied us that our machine will measure up to the performance that is expected of it." Complete details from Ball-O-Matic, Inc., P. O. Box 5606, Denver, Colo.

Gibbs Named Assistant VP of Dunlop Golf, Tennis Sales

Paul W. Gibbs has been appointed assistant vp in charge of sales of golf and tennis equipment for the Dunlop Tire & Rubber Corp. A veteran of 25 years with the firm, Gibbs worked out of the Richmond, Atlanta and N. Y. divisions before joining Dunlop's New York headquarters in 1953. At one time he was tour mgr. for Vinnie Richards, Bill Tilden, Alice Marble, Fred Perry and other famed tennis stars. He also was affiliated with the Eastern Lawn Tennis Assn. and the Manufacturers' Committee of the PLTA. Currently, Gibbs serves as a director and finance committee member of the National Golf Foundation.

GOOD ROADS MULCH-VAC SWEEPER

Leaves are everybody's problem! For fast, efficient removal of debris, and wet or dry leaves use a towed 8-25 Mulch-Vac which can cover more area more efficiently than men using other methods. The debris will be collected by the Mulch-Vac, mulched, and then deposited in a four cubic yard cage attachment. If desired, leaves can be vacuumed, mulched and then automatically re-spread as natural fertilizer.

Pro-Dough Designed to Stimulate Pro Shop Sales

A new kind of sweepstakes scorecard, designed to stimulate pro shop sales, is being marketed by Pro-Dough, 3838 Wynkoop st., Denver. The new handicapping method is described as a volume builder and a way of getting players to take a greater interest in their handicaps. The scorecard is designed to reveal players' handicaps after completion of a round. A winner has his 'Pro-Buck' certificate signed by the pro, entitling him to merchandise. Golfers may play as many cards as they wish in a round. Franchises for distribution still are available, according to Pro Dough.

25,000 Cub Cadets Built

International Harvester turned out its 25,000th International Cub Cadet early in the year. The Cub was put into production about a year ago to meet the demands of the small tract owned. It performs such multiple jobs as soil preparation, seeding, fertilizing, mowing, lawn sweeping, snow removal and earthmoving.

STOP BALL MARKS ON GREENS with this

DIVOT FIXER

Let's see what punishment the greens must take. 20,000 rounds of golf means 20,000 shots to each green.

If 10% hit the greens it would mean 2,000 holes per green each year.

Repairing these holes an hour later or next day is useless. The damaged turf must be repaired at once to avoid a hole and brown spot.

Make your own test. Just try to repair an old ball mark. Then a new one.

Our little Divot-fixer tool can help you solve this problem.

Prices: for plain or Imprinted as shown—

Swatch and Style Guide

DiFini Originals, Inc., New York City, has introduced its spring and summer line of men's golf slacks in an attractive swatch and style guide for 1962. "Par Golfer", "Trim Golfer" and "Convertible Model" slacks and latest models of men's Bermuda shorts are illustrated in the new catalog. Bermuda shorts styles for women also are illustrated in the swatch and style guide.

Redanty with Marblehead

Redanty

Joe Redanty, pro at LeRoy (N.Y.) CC, has been named a distributor in western and central N.Y. for the new "Old Stony" putter made by the Marblehead Golf Corp., PO Box 1562, Sarasota, Fla. Made of marble, the putter was designed by Fred Taylor.

MacGregor Tells Merits of Its DX Tourney Ball

The new MacGregor DX Tourney ball, winner of the PGA driving contest for four straight years, is said to combine real durability with distance. It features a new cover material, Permolect, that is lightweight and thin but strongly resistant to scuffing, cutting and abrasion, according to the manufacturer. A secret formula paint, Resilicote, gives a stay-white finish. MacGregor describes the packaging as sparkling. DX Tourney is sold only in pro shops.

Febco Economy Kit for Sprinkler Installation

An economy kit, produced by Febco Inc., 1993 Blake ave., Los Angeles 39, is said to be ideal for small tract installation where cost of a

fully automatic sprinkler system is prohibitive. It consists of a Febco EM-8 semi-automatic controller and up to eight No. 1826 electric control valves, sufficient to handle most installations with $\frac{1}{8}$ to $1\frac{1}{2}$ in. valves. The controller, no longer than a transistor radio, is mounted in any sheltered spot and connected to electrically actuated valves by simple wiring. The kit also may be used to convert existing, manually operated systems to semi-automatic operation.

**Pre-Tapped Coupling Saves
on Materials, Labor Costs**

Keasbey & Mattison, Ambler, Pa., has introduced a new pre-tapped coupling for asbestos-cement water pipe. A threaded brass insert in the coupling eliminates field tapping for connections and assures a water-tight joint for risers, plugs, etc. K & M points out that use of the

pre-tapped couplings eliminates the usual cost of material and labor for field tapping. The couplings are available for pipe diameters from 3 to 8 ins. and have either A.W.W.A. threads ($\frac{3}{8}$ to 1 $\frac{1}{4}$ ins.) or iron pipe threads ($\frac{3}{8}$ to 1 $\frac{1}{4}$ ins.).

**Claim 54 Holes per Charge
for Go-Far Car**

New in the car market is the Go-Far, a lightweight vehicle that is said to travel up to 54 holes on a single charge. It features a sim-

ple electrical system with no solenoid switches to burn out, according to the manufacturer, Go-Far Corp., Golf Car div., Box 346, Phoenixville, Pa. A built-in transformer using an ordinary 110 volt extension cord makes a battery charger unnecessary and the drive system is said to deliver 95 per cent of power direct to the wheels. The foot pedal serves as accelerator

and brake and there is no clutch. The car carries two persons 8 mph and its low gravity center and a wide wheel base in front make it unusually safe to operate. Go-Far weighs about 450 lbs.

**Aqua-Dial #15 Designed for
Original or Conversion System**

The Aqua-Dial #15 is a gear-driven rotary pop-up with 190 ft. diameter coverage that can be installed as new equipment or be used to convert quick coupling equipment. Conversion doesn't require changes in the present pump or piping system. On automatic, the nozzle cover pops up when the watering cycle starts, rotates slowly and then drops freely back into the body when the cycle is completed. The #15 has three-sweep nozzle for pinpoint control. The unit is made of durable non-corrosive materials by Aqua-Dial, PO Box 1325, Newport Beach, Calif.

Levine Firm Distributes Sleeveless Sweater for Women

The Par-Mate Sleeveless Helanca golf sweater for women is fully absorbent and may be washed by hand or machine without fading or stretching. It is distributed by Jack D. Levine, Inc., 10 W. 33rd st., New York 1. The Helanca has a turtle neck, embroidered emblem and comes in several different colors. Pros can obtain an attractive display from Par-Mate to encourage

multiple sales. It can be obtained by writing to Levine.

Expands Sprinkler Membership

According to Robert C. Mueller, executive secy., the Sprinkler Irrigation Assn., has recently expanded its membership to take in more irrigation equipment manufacturers and wholesalers. Complete information about the organization can be obtained by writing to Mueller at 1318 Second st., Suite 27, Santa Monica, Calif.

International Crawler Pushes Debris Around at Elkin

An International TD-20 crawler was used at the Cedar Brook CC in Elkin, N.C. for grading

and clearing while the 9-hole course was under construction there. The crawler, says International, is especially valuable for bulldozing debris. The Elkin course will be put in play this summer.

Re-Nu-It Kit for Woods

The Eton Re-Nu-It kit, marketed by Eton, 3551 Charleswood ave., Memphis 12, Tenn., is said to provide everything necessary to refinish four woods. This includes remover, wood filler, stain, masking tape, steel wool and sandpaper, brush, felt and Eton wood Nu-spray.

Rain-O-Mat Develops Gearless Pop-Up Sprinkler

Rain-O-mat Sprinklers, Inc., 11701 E. Washington blvd., Whittier, Calif., has developed a pop-up sprinkler that doesn't have gears and is designed to cover areas up to 90-100 ft. in diameter on 40 lbs. pressure. It has only two moving parts, a hardened steel ball and a brass spindle or head. There are two ports, one for close coverage and one for long range throw. The orbiting steel ball is said to assure uniform flow. The sprinkler can be removed for cleaning without disrupting the chamber or removing it.

Commercial Mowers Described in Jacobsen Folder

The 1962 Commercial folder (62CF) describing Jacobsen Manufacturing Co's commercial mowers can be obtained by writing to the company at 1721 Packard ave., Racine, Wis.

The 8-page two color folder describes the features of the Turf King, Park 30, Estate 26, Lawn King, Mow Mobiles 34, 37 and 48 in addition to the Edge-R-Trim, Trim-O, Turf Slicer 21 and the Rams 22, 24 and 24SP, listing specifications of each unit and telling what accessories are available with each.

Behrendt Elected to Wilson Board of Directors

M. A. (Mike) Behrendt, manufacturing vp for Wilson Sporting Goods Co., has been elected to the firm's board of directors. Behrendt has been with the company since 1922, starting as a clerk in the leather goods div. Five years later he transferred to the golf club dept. and in 1937 became supt. there. He was made assistant to the vp of manufacturing in 1955 and a year later became vp in charge of manufacturing. Wilson has 28 sales divisions in the U.S. and 14 factories and operates four foreign sales outlets.

Moist O'Matic Markets New Pop-Up Sprinkler

Moist O'Matic, Riverside, Calif., is now distributing Model 634, a new intermediate size, full circle, gear driven, rotary pop-up sprinkler. It embodies many of the proved design features of the large sprinkler models. Maximum protection of the head against damage is provided by a rugged, heavy, cast bronze case and cap and a free-rotating nozzle assembly. Increased efficiency results from a large water passage and the low rpm of the precision balanced turbine. Servicing of the unit is simple as the entire operating mechanism can be easily removed for cleaning, etc.

Scott Recommends Three Fungicides for Total Control

O. M. Scott & Sons, Marysville, O., claims to have three knockout punches in Scutl, Cope and Halts for control of fungus disease and turf

damaging insects. Scutl, a ready-to-use mercuric fungicide is effective in controlling leaf spot, brownpatch, dollarspot, red thread, fusarium and snowmold. Cope is said to be deadly to grubs, ants, chiggers, etc., and Halt controls most soil insects, giving an extra benefit when it is used to stop crabgrass.

Toro Institutional Rotary Ideal for Rough Ground

The new 25-in., self propelled Institutional Whirlwind rotary, made by Toro Manufacturing Co., Minneapolis, is fitted with large semi-pneumatic bicycle tires, making it ideal for hand operation. It is especially adaptable for sandy soil and rough ground. The housing is made of 14-gauge steel and wheels are bearing mounted. The Institutional is powered by a 4.5 hp engine, speed is about 3 mph and there is a 6-quart fuel tank. Cut height can be adjusted from 1½ to 3 ins. by moving the wheels. A grass-bagging kit and "no-lift" blade for heavy cutting are optional.

Unusual Packaging for Doug Sanders Golf Balls

The new Doug Sanders Tough Cover ball is packed six doz. to a carton in an unusual display setup. Balls are loose in a jumbo size box and provide a sales-inviting appearance, according to the manufacturer. Sanders personally claims that the Tough Cover means just that. Manufactured by First Flight Co., Chattanooga, Tenn., the ball is sold only in pro shops.

Midwest's Golfkar Goes 36 on Two Gallons of Gas

A two-passenger, gas-powered car with molded fiberglass body is being marketed by Midwest Metal Stamping Co., Kellogg, Ia. Called

Golfkar, it is powered by a 7 hp engine (Kohler K-161S) and is said to go 36 holes on two gals. of gas. An automotive type muffler combined with the fiberglass body restricts noise. The vehicle rides on aircraft type balloon tires, weighs about 450 lbs. and has a 53-in. wheel-base. It is equipped with foam cushion seats, rubber cushion mounting on the front wheels and has an automotive type coil suspension of the rear wheels.

AMF Takes N. Y. Lease

American Machine & Foundry Co., maker of golf, bowling and other recreation equipment, will be the major tenant in the new Madison Square Garden Center to be built at ground level above the Penn & L.I. railroad stations in New York. It plans to lease 12 floors.

Hayman Publication

B. Hayman Co., Inc., 3301 Leonis blvd., Los Angeles 54, has started publication of the "Turf Equipment Reporter", which it will distribute to West Coast consumers every month.

Bowen Moves General Offices

Bowen, Inc., Pasadena, Calif., has moved its general offices to 2793 East Foothill blvd.

The firm's factory remains at the old location, 81 Masonic ct., also in Pasadena. Expansion of golf shoe production prompted moving the company's office (photo), according to Kip Bowen, pres.
