

PAR GOLF MFG. CO. NEW FOR '62

Miniature Golf Obstacles

Just a few of our latest obstacles for new or established courses.

MISSISSIPPI QUEEN

Majestic motorized stern-wheeler requires a timed putt through the slotted, revolving paddle wheel. Plexiglas windows are all illuminated. 34" wide x 36" high x 72" long. Colors: yellow, red, black, blue, white

REVOLVING CLOWN

Motorized clown goes 'round and 'round. His feet are full runway width, requiring players to time their putts. Fully finished on both sides in gay circus colors. 34" wide x 60" high. Completely wired.

KANGAROOS

Watch 'em hop — one up, one down — time your putt for the open side. Boxing kangaroos make a real action obstacle. Both sides colorfully finished. 34" wide x 48" high. Completely wired.

Sherwood Moore Elected GCSA President

Sherwood Moore, supt. at Winged Foot GC in Mamaroneck, N.Y., is the new pres. of the GCSA. He was elected at the annual convention to succeed L. E. (Red) Lambert of Prairie Dunes CC, Hutchinson, Kans., who held the post in 1961.

Other GCSA officers are: Roy Nelson, Ravisloe CC, Homewood, Ill., vp and Edward (Ted) Roberts, Jr., DuPont CC, Wilmington, Del., sec.-treas. The directors are George L. Lanphear, Ojai (Calif.) CC; David S. Moote, Rosedale GA, Toronto; Riley Heckert, Hershey (Pa.) CC; Lawrence G. Mattei, Kingsboro GC, Gloversville, N.Y.; Bob Shields, Woodmont GC, Rockville, Md., and Lambert.

Moore, who has one of the big jobs in golf in keeping Winged Foot's 36 holes in traditional excellent shape, was for several years one of the more tireless behind-the-scenes worker in the GCSA before the organization rewarded him with the presidency. He has been in the turf field for about 25 years, receiving his indoctrination at the Stockbridge school of the University of Massachusetts in the mid '30s. After getting his diploma there he worked for three years at Passaic County GC in Patterson, N. J. In 1939, he was named supt. at Lake Mohawk GC, Sparata, N. J., and held this position until 1941 when he was inducted into service.

In service he was with the 29th Infantry for 1½ years, transferred to the Air Corps and attended Meteorology school and then served as a weather forecaster with the 8th Air Force in the ETO.

In 1946, Sherwood went back to Lake Mohawk for a year and between then and 1958 when he took the Winged Foot job, he was supt. at Crestmont in West Orange and Hollywood GC in Deal, both in N. J.

Moore is a native of West Haven, Conn. He received his grade and high school education in Northampton, Mass. He and his wife, Marie, one of the more popular members of the set who suffer with their supt. husbands, make their home in Larchmont. They have three children, Sherry, Carol and Glenn.

Sherwood apparently doesn't see enough of the soil at Winged Foot. He list his No. 1 hobby as gardening, but quickly adds that he collects stamps and likes to read and swim.
