

# Put Billions of Workers into Your Soil!

Living bacteria, the workers in your soil are major contributors to superior turf! This working force digests your application of plant foods and fertilizers; converts them into a form that will be readily used, resulting in a healthier more vigorous growth.

The controlled composting of "True Organic", DIGESTS the chicken, cow manures and activated sludge into a Non-Burning plant food and soil conditioner. The countless billions of living organisms that are produced during composting are preserved by Air Drying at safe temperatures.

"True Organic," rich in minor elements, secondary and major plant nutrients, reduces leaching and improves your soil's condition.

**Paul E. Allen Co.**

**Palm Harbor, Florida**

Penecale as the district's outstanding woman, amateur and pro golfers-of-the-year, respectively. Morton H. Fetteroff, Jr., former president of the Golf Assn. of Philadelphia was cited for his "contribution to the game", and Joe Hunsberger of Juniata received an award as "home pro-of-the-year".

## Convention Golfers

*(Continued from page 50)*

no golf worries and all he has to do is to enjoy himself playing.

When a golfer arrives at Whiteface he doesn't have to touch his clubs until he arrives at the first tee. Our routine is:

- (1) Bellboys bring clubs to the golf shop;
- (2) Clubs are cleaned and tagged;
- (3) Cars and caddies are assigned at first tee;
- (4) Players are met at 18th for scores and scores are posted;
- (5) Clubs are cleaned again and stored;
- (6) Bags taken to hotel on checkout day;
- (7) Assistants tabulate tournament

scores and results;

(8) Hole-in-one, driving, and putting contests are conducted for each convention by one of my staff.
