TeeBirdie Drive Equipment Is Specially Designed

Ft. Worth Steel & Machinery manufactures the specially made drive equipment used in both gas and battery models of TeeBirdie

golf cars, manufactured by Tri Powered Corp. of Austin, Tex. This, it is claimed, gives both models positive uphill and downhill driving power that is transmitted through either two-groove or three-groove wedge belt sheaves. TeeBirdies feature tough fiberglass bodies with impregnated color, four large coil springs for automotive type riding and tiller control.

Pedersen's Plus 3 Model Clubs

The 1963 line of stainless steel Plus 3 model irons of Pedersen Sales Co., Wilton, Conn. have

rolled over top lines of each of the numbers that are said to give a power look and encourage hitting under the ball. Face markings do not have side lines, giving the appearance of a larger hitting area. True Temper Pro-Fit shafts are standard for both

men and women, although Exel shafts may be specified without extra charge. Grips available are black calf leather, all styles of Golf Pride or Goodwin Grips. Plus 3 woods have persimmon heads, red formica inserts and new markings on the crown and may be obtained with True-Temper or Dynamic shafts.

Toro Has Banner Year; Sales Up 14.5 Per Cent

Estimated sales of Toro Manufacturing Corp. for the fiscal year ending July 31 were nearly \$22 million, according to David M. Lilly, pres. This represents a 14.5 per cent increase over 1960-61, which had been a record year. It is estimated that earnings per share for 1961-62 will top \$3.00, a substantial increase over the \$2.10 earned the previous year. Lilly said that "replacement demand" accounted for 80 per cent of all power mowers sold.

Al Robbins Markets Two Specialty Items

Al Robbins Enterprises, Box 887, Evanston, Ill., distributes a new model Dymo Tape machine that can be used for preparing tapes that can be attached to golf shoes. The owner's name is punched out on metal that is then attached to the sole of the shoe by the means of brads that are inserted by the machine. A tape for each shoe is recommended so that there is no danger that one or the other can become lost or misplaced.

Another Robbins specialty is a bag tag fashioned of 1/4 in. sole leather. Name, club, etc. can be burnt into the leather so that they won't wear off. The tag is made in the form of a shield and is attached to the bag by a strap, chain or hook through a hole at the top of the shield.

AMF-Larchmont Agreement

AMF International div. of American Machine & Foundry has signed a licensing agreement with Larchmont Engineering, Inc., Lexington, Mass., to manufacture and market the latter's snow-making system in all countries outside the U. S. The Larchmont system converts water and compressed air into snow which is shot out of guns onto the skiing slope.
