FRONT COVER

Here's a view, cactus tree and all, of the 18th green at the Tucson National GC, opened in mid-February Developer William Nanini reportedly has introduced something new here in allergy-free Bermuda turf, and among other things, the Spanish Colonial clubhouse boasts an authentic Finnish sauna. The course plays to a maximum of 7,500 yards, presents three large lakes and is ringed by the foothills of the Santa Catalina mountains. Bob Klewin is the resident pro, Bob Harris teaches at the club in the winter and Ed Curllin is the supt. The course is surrounded by homesites.

The women's hospitality program at the GCSA convention was in the capable hands of Hi-Lo Desert supts' wives shown in the inset photo. They are (l to r): Mrs. Phyllis Moore, Mrs. Helen Sims, Mrs. Annie Sanders, Mrs. Irene Hardin, Mrs. Bud Turner, Mrs. Harriett Gaughenbaugh and Mrs. Anne Hixson.

Clifton, Caldwell and Kearny . . . Steadily growing popularity of these classes and their high value in golf market development recommend Geoghegan's plan to high school officials and pros.

Akron long has been alert and able in tying first class golf operations into attractive municipal publicity . . . The Rubber City Open and a PGA national championship, with the publicity and organizing genius of Lauren Tibbel, Akron News-Bell sports editor, have been worth a lot of money to the city . . . GCSA first began to make itself known nationally as a valuable constructive force in golf when an Akron publicity man, connected with Good park, became the GCSA publicity director . . . when he handled publicity, the GCSA got more nation-wide newspaper publicity than it ever had before.

Expense account tax confusion certainly hasn't helped business at winter resort courses . . . Play and spending improved somewhat in February after businessmen convinced themselves they won't be sent to Siberia by the Washington tax commissars if expense accounts for entertaining customers and prospective customers are detailed to the extent they will subject the citizen to more surveillance by the commissars.

Hard to figure out the eggheads, tax commissars and politicians who are goose-loose with your money . . . They talk nobly about physical fitness . . . Then they tell you that you are committing a sin against the state and should be penalized for taking your family for golf, swimming and other healthy play at the country club . . . Representatives and senators get \$22,500 as annual salary, plus nice expense accounts, plus fat jobs for members of their families, plus excellent congressional club facilities, plus free loading junkets that generally show larceny at its finest at the poor tax-paying chumps' expense . . . What crust the tax commissars have to get fussy about expense accounts!

There is a comic side to this picture of congressional hypocrisy . . . Like when the real cool cat congressman got caught with a couple of his "lady friends" blowing American taxpayers' money in a circusy Parisian night club . . . When he heard the trigger click he yelled out, "Ain't nobody here 'cept us congressmen," . . . The statesman who snitched on his colleagues' carelessness with expense account money moonlights as a clergyman.

NO NEED TO ASK —
IT'S ALWAYS FRIENDLY

because . . .

IT CENTERS ITSELF PERFECTLY
EVERY TIME IT IS REPLACED.

NEVER STICKS—LIFTS IN AND
OUT WITH PERFECT EASE.

ABSORBS SHOCK—OFFERS LEAST
REBOUND OF ANY PIN.

ADJUSTABLE TO WEAR TO
PROVIDE CONTINUING PERFECT
PERFORMANCE.

LOWEST COST—GREATLY
REDUCES PIN BREAKAGE.

LASTS MANY TIMES LONGER
THAN CONVENTIONAL BASES.

The 'Friendly' Golf Pin offers the only significant and worthwhile improvements ever made in the base of a pin. It lifts with ease and its working is unaffected by sand or grit in the cup. Pin breakage is greatly reduced because twisting, jerking or beating the pin is unnecessary. If your cups have become considerably worn, there is no need to replace them as the 'Friendly' Pin fits a worn socket as well as a new one. After extended periods of use, sufficient wear may have occurred to the surface of butyl disc 'B' to require adjustment. To compensate for this wear and restore to original adjustment, simply turn adjustment bolt 'C' approximately one-tenth of a turn. The tapered upper part of the base 'A' is self-centering and self-adjusting to wear. The lower part of the base is centered by the expansive butyl disc 'B', which is more resistant to wear than metal. Send for further information or order your 'Friendly' Pins today and end the annoyances of sticking and leaning pins. You will be more than delighted with your new 'Friendly' Golf Pins.
