anaerobes". Essentially they are bacteria that can work with or without oxygen. Don't worry about them — they will adjust.

Since there is ample P and K in your soil, I disagree with the recommendation that you should use a 5-10-10 fertilizer to correct acidity.

Under no circumstances should you follow the recommendation to spray twice daily with a 10 to 20 per cent copper sulfate solution. It can render bacteria harmless and poison the soil so that grass can not grow.

Golf Car Manufacturers Granted Charter

Following the July 14 executive board meeting of the American Golf Car Manufacturers' Assn., James H. Carrier, president, has announced the approval and adoption of association by-laws and receipt of a charter by the State of Illinois to operate as a non-profit organization. Carrier reports that valuable progress has been made in discussions of the manpower, materials and operating procedure for attaining the association's objectives. All golf car manufacturers are invited to join the AGCMA. The association is seeking an executive secretary. Those interested in the position are invited to send a complete resume and recent photograph to American Golf Car Manufacturers' Assn., P.O. Box 8373, Chicago, Ill.
