Parker Thatch-O-Matic Power Rake Combs Turf

The problem of thatch is solved by the Thatch-O-Matic power rake, according to Parker Sweeper Co., Springfield, Ohio. The small tines of the machine are said to have a powerful combing action that lifts out great quantities of dead roots, stems and grass clippings without changing the appearance or vitality of turf. After the rake is used turf is freed of harmful debris and is ready to receive fertilizers and water.
