Back in April of 1936 Golfing's player staff, composed of Paul Runyan, Henry Picard, Olin Dutra, Craig Wood, Jug McSpaden, Sam Parks, Jr., Horton Smith, Harry Cooper, Walter Hagen, Willie Hunter, Jimmy Thomson

Mike Burke has left Florham Park CC in New Jersey after three years . . . Candid Camera TV show visited Broadacres CC in Bloomfield, N.J. and filmed a disappearing golf ball skit . . . STOP BALL MARKS ON GREENS

with this DIVOT FIXER

Let's see what punishment the greens must take. 20,000 rounds of golf means 20,000 shot to each green.

If 10% hit the greens it would mean 2,000 holes per green each year.

Repairing these holes an hour later or next day is useless. The damaged turf must be repaired at once to avoid a hole and brown spot.

Make your own test. Just try to repair an old ball mark. Then a new one.

Our little Divot-fixer tool can help you solve this problem.

a Jones turf consultant . . . Noer and J. D. Kilpatrick, builder and first supt. of Thunderbird at Palm Springs, came to work with G. A. (Bud) Turner, Royal Kaanapali supt., in readying course for Canada Cup . . . Warm and deserved tributes to Tom Crane at the PGA President's dinner . . . Tom has been at 22 annual meetings and missed only one . . . He worked with eight of the PGA's 14 presidents . . . He's going to be consultant now that he has retired . . . Tom's patience and attention to detail brought the PGA through perilous days of growing pain . . . No official word about Crane's retirement arrangement, but it should be a very good one in view of the need of the PGA setting a good example to golf clubs, many of which haven't distinguished themselves as organizations of gentlemen sportsmen by the retirement provisions made for professionals who have served them well and faithfully for many years.

Bill Wotherspoon performed gracefully as m.c. in completing the long program of the PGA President's dinner before the diners got bunions on their fannies . . . Pres. Warren Cantrell's remarks, as usual, were brief and pertinent . . . PGA has been lucky to have him . . . He has saved pros millions in settling the PGA National course deal and now, with that job out of the way, can get his administration to work on complex problems of club pro business.

NEW — LABOR-SAVING Pebble Catcher

- ★ Eliminates "clean up" with greensmower or sweeper after topdressing.
- ★ Leaves completely smooth putting surface.
- ★ Accomplishes floating out topdressing and does better job of working in material.
- ★ Big labor savings in topdressing operation.
- ★ Allows use of coarse material alleviating compaction.

Attach "Pebble Catcher" to the end of the drag mat to catch all particles which bounce through the mat. All particles too large to be worked in bounce over the sections of the drag mat. By using the "Pebble Catcher" you either drag them off the green or catch them. In many cases, if proper shredding equipment is used, screening of top dressing can be virtually eliminated. Immediately after dragging with the "Pebble Catcher," greens can be mowed without fear of damage to greensmowers.
