Clubs, Designer Cooperate

Granberg says that he has always found that people responsible for interior design at clubs are very easy to work with. When asked, however, about committees deciding on decor, he said: "I'm reminded of the old joke about the camel. It is a beast that looks as if it was designed by a committee." Most clubs committees, though, he says, are quite happy to approve wholeheartedly what a designer does, because they know it has a pleasing overall effect. He tells of how after decorating the Silver Lake GC in Orland Park, Ill., there was a rather severe fire in the clubhouse several years later. "They liked the original decor so much," Granberg recalls, "they had us duplicate it exactly."
