## New from MacGregor/Brunswick —bullet proof woods!

It's not very likely you'll be seeing the headline, "Bullet Proof Golf Clubs," on any of the MacGregor/Brunswick Division advertising for 1966, but you can't blame the folks in Cincinnati for thinking about it.

Early last December an automobile in a New York town was cruising the streets when suddenly a shot rang out. A .38 caliber gun was fired, the bullet shattering the display window of a local sporting goods dealer. When Police arrived on the scene, they found the slug had gone through the window, hit the MacGregor #1 wood, continued through the packing carton and then flattened itself against the floor.

The shot ruined the window, destroyed the packing carton, scarred the floor, but barely damaged the persimmon wood golf club. If that's not a bullet-proof golf club, there aren't any! Police aren't sure who fired the shot or why. Speculation has it the gun bearer gave up the game in a huff last summer!
