## NEW PRODUCTS

Made of double-thick Creslan in a cable stitch, new knit head covers from Acushnet Process Sales Company feature a special leather-like shield for embossing. The knit covers are completely washable, color-fast, says the company, and are available in 10 color combinations with contrasting numbers on matching or contrasting shields. The retail price for four is \$9.75 through pro shops only.

Ace Electric Corporation, Cedar Rapids, Iowa, has announced a new 120,000 BTU capacity portable

space heater. The model ace-120 can be used anywhere extra heat is required. The new unit features a king-size removable top providing access to working parts when cleaning is required.

A combination tee bench and shelter that rotates like a weather vane in a light wind to face away from wind and slanting rain is available from Copa Shelters Inc., 289 Oakville Drive, Pittsburgh, Pa. 15220. It seats six and provides additional sheltered standing room for six more. Formed of weather-resistant molded fiber glass, it provides a shady rest from the glaring sun and a safe and dry refuge from sudden rains and thunderstorms. List price for the shelter is \$595, plus shipping costs.

Thompson Manufacturing Company's complete line of professional turf irrigation equipment is headed by two new long range, gear-driven, rotary, pop-up sprinklers. The Commander Series sprinklers, models 188 and 189, are designed for golf courses. They are available in five nozzle sizes and in both full and part circle heads providing coverage up to 200 feet diameter. For more information, write the company at 2251 East Seventh Street, Los Angeles, Calif. 90023.

## NEW PRODUCTS

Style combined with top performance is what the Devere-Locke factory people are claiming for their PMR series of 32" and 38" rotary mowers, manufactured in Racine, Wisconsin by Locke Manufacturing Companies, Inc. The PMR mowers are now styled with safety hoods that cover the transmission belts and add to the safety as well as appearance of these rotaries. The PMR is a "big" medium-sized rotary mower because it will also plow snow or clean driveways. The 9 hp power unit that drives the 38- and 32-inch mowers also powers attachments, such as a snowplow and snow blower. These rotary mowers feature close side-trim on both sides of the cutting unit. The PMR is equipped with reverse transmission.

Turf-King is a concentrated liquid plant food which, it is claimed, actually improves grass root growth. Grass grows greener, stays healthier and brighter and top grass grows faster because the product penetrates deep in the soil to reach plant roots, according to Chemsearch, adding that it is a labor saver; it can be blended and applied with water emulsifiable insecticides for combined fertilizing and insect control. For more information write to National Chemsearch Corporation, P.O. Box 217, Irving, Texas.

West Point Products Corporation, West Point, Pennsylvania, announces the new T-3 truck. The three-wheeled, gas-powered vehicle is available with either a 6 hp or 8 hp engine. It carries a workman to and from work areas at speeds up to 10 mph eliminating walking time between greens or tees or to and from any work areas.

The portable insect Electrocuter plugs in anywhere with no installation required. The high voltage grid made of zinc-coated steel assures instant death for insects. It carries 4200 volts, 10 milliamperes current and is harmless to pets and birds. The electrocutor comes in two models, the utility and the de luxe portable. All workmanship and all parts are unconditionally guaranteed against failure for one year. For further information write Ram Meter Inc., 1100 Hilton Road, Ferndale, Michigan 48220.

"Strictly Golf" Company announces the introduction of a range ball that is so durable the company is willing to guarantee it. It's a high compression ball yet conforms to U.S.G.A. regulations. For more information write "Strictly Golf" Co., 5845 W. Lake St., Chicago, Ill. 60644.

Available now from International Rubber Corporation, 83 High Street, Boston, Mass. 02110 is a smooth top matting which is invulnerable to tripping or slipping, claims the company. This matting is recommended for use in areas exposed to extreme traffic conditions. It is also spike resistant. Available in black or confetti pattern, size  $\frac{1}{8}$  x 36" wide.

The W. A. Cleary Corporation, P. O. Box 749, New Brunswick, New Jersey 08903, is now marketing their "Spotrete" (75% Thiram) and "Thimer" (Mercury-Thiram) fungicides in water soluble bags. Each bag holds 8 ounces and treats 2000 square feet. Just place the water soluble bag in the spray tank water and agitate.

## NEW PRODUCTS

The new M-34 Anti-Freezing Murdock Drinking Fountain is designed to conform to modern architectural concepts. The manufacturer says the unit is constructed of brass, bronze and iron to withstand the ravages of weather and vandals, and adds that the self-closing foot valve prevents waste water. The side stream bubbler and mouth guard meet sanitary codes and the inner works are permanently assembled, so that re-washing once a year is practically all the maintenance ever needed. For additional technical data, write to the Murdock Manufacturing & Supply Company, 2488 River Road, Cincinnati, Ohio 45204.

Two models of the Bailey Golf Ball Picker are being offered by the Eastern Golf Co., 2537 Boston Road, Bronx, N. Y., 10467. According to the firm, use of the Bailey Pickers will save time, labor and money, in addition to reducing weather damage to the balls and preventing pilferage.
