## BOOST SHOP SALES

Continued from preceding page
pay some of these suppliers before June, you would have in net profit $\$ 1,800$ by the end of April and another $\$ 5,500$ by May 31 to do so. If you need additional capital, a short-term loan from your local bank could be arranged.

Let's see how an original investment of only $\$ 3,500$ would enable you to operate this business. With a total gross income of $\$ 114,000$ and total expenses of $\$ 94,100$, you would realize a year-end profit of nearly $\$ 20,000$.

Step Four: study it month by month to see how. Figure 4 shows how the monthly income and expense totals from Figure 3 stack up.

By the end of April you show an $\$ 1,800$ profit, and by May 31 it's up to $\$ 7,300$. But hold on-don't let money burn a hole in your pocket-the big expenses are about to come! In June you take in $\$ 19,500$ but you must pay out $\$ 27,800$ for a deficit of $\$ 8,300$. This wipes out the $\$ 7,300$ you had accumulated, and along with it $\$ 1,000$ of your original investment of $\$ 3,500$. During July your income is $\$ 28,000$-the best month of the season-but you must pay for the merchandise you bought and the expenses of $\$ 30,450$ leave you with another deficit.

This time it's a minus $\$ 2,450$, leaving your original investment of $\$ 3,500$ down to a precarious $\$ 50$. Cheer up! The tide has turned, and the profit will soon start to flow in. In August you take in $\$ 27,500$, your expenses are only $\$ 4,200$, and you have a whopping profit of $\$ 23,300$. Now you're on your way. September expenses of $\$ 17,850$ against income of only $\$ 16,500$ leave you with only a $\$ 1,350$ loss for the month.

You're still in good shape as no more large expenses are forecast. October

## Etonic Offers Pros Course in Selling

The Charles A. Eaton Co., Brockton, Mass., has announced a new "Golf Professional Course in Soft Goods Merchandising," a correspondence course in six lessons now open for enrollment to all pros, shop managers and assistants.

The course covers all phases of soft goods merchandising: publicity, promotion, advertising, selling techniques, information on textiles and leathers, apparel and shoe construction, shop management principles, and public relations.

A tuition fee of $\$ 25$ per student will be refunded as a credit toward purchase of Etonic merchandise, upon successful completion of the course. Graduates will also receive a diploma suitable for wall mounting. Registration forms are available from Etonic salesmen, or from Charles A. Eaton Co., Brockton, Mass.

The student may send a check for the tuition with his registration form, or ask Eaton to bill his account. By return mail he will receive a leatherette binder containing Lesson One and a Test Page consisting of 25 true-or-false and multiple choice questions.
profit of $\$ 1,400$ wipes out the small September loss and you are home free with $\$ 19,900$ in the bank for the season, along with your original $\$ 3,500$ investment.

You did not have to touch your original investment of $\$ 3,500$ until the end of June when you had to spend $\$ 1,000$ of it. The next and final draw from this nest egg came on July 31 and was $\$ 2,450$. After using this money for only two months your entire original investment of $\$ 3,500$ is recovered and you are in the black to stay.

These figures should prove that it makes sense to budget for bigger profits.
