

## LOCH LEDGE

*continued from page 62*

charge) during the afternoons.

Lessons will be given on a full-length driving range at the foot of three slopes used for skiing in the winter. A range boy will be in attendance all day for members wishing to warm up and practice on the driving range.

The range, which is a five-minute walk, or a one-minute ride from the clubhouse, is serviced by a motor-driven trolley-car train, operated by a man whose sole job is to transport members to and from the range and clubhouse on a continuous basis. During the winter, the same trolley will transport skiers and their equipment to the lifts and lodge.

Golf cars will be available to the members. A permanent member of the grounds crew will service these cars and other grounds machinery.

So there you have it—a country club that offers golfing, swimming, and tennis

in the summer, and skiing and swimming in the winter—a real year-round club.

It is most apparent that the trend for today's new country clubs is more than just providing summer recreation. They are country clubs operated on a year-round basis, providing as many modern conveniences and summer and winter recreational features as the area will allow. Loch Ledge is a perfect example of this. ●
