

New products

Carlson Company manufactures the Jif-Fly Field Marker. The marker has many uses on the course such as: out-of-bound markings, bounds for marking hazards and to mark areas during tournaments.

Kohler Company introduces its new 4-hp engine, model K101. This cast iron engine is the smallest in the Kohler line. Its standard features include: retractable starter; automatic compression release; precision, oil bathed, fly-weight type governor internally-mounted with external adjustment, and a silencer type muffler.

Motor Appliance Corporation introduced their new model 1555-T battery charger. It features three different lights that turn on in sequence throughout the charging operation to show how much the batteries have progressed.
