

RYEGRASS. It's the One You Don't Need to Baby.

That's one of the joys of both Annual & Perennial Ryegrass.

Both are very easy to establish and neither requires pampering or special attention.

When you sow it, you need only be sure the seed comes in contact with the ground and it will come on strong in a hurry. Normally this is in 6 to 14 days.

Sow it even under unfavorable dry conditions and it will take off as soon as there is moisture.

Both Gulf Annual or Annual are favorites in Southern regions for overseeding greens, tees and fairways.

Linn Perennial is popular in Northern regions for fairways because it stands up to heavy foot and vehicle traffic and responds rapidly to water and fertilization.
