

NEW PRODUCTS

OFFERING exclusive design advantages at a salable price, Merlin woods and irons are the latest from Simmons International. Each club has a pro-styled radius sole design, adding increased accuracy anywhere on the course. The irons have a uniform impact-moment, requiring no club-to-club swing compensation. Woods are laminated maple.

AS an alternative or supplement to car rentals, the Kangaroo Katty by Gan-Ed offers both profits and advantages to the course. The motorized cart is guaranteed to pay for itself in six months, according to the manufacturer, and will not cause the wear and tear of cars. The Katty is operational in all kinds of weather, even when cars can't go. Gan-Ed is currently offering a new model of the Katty for heavy rental use on courses. The new model features rugged caster wheels and a battery that will hold a charge for more than 36 holes.
