

# NEW PRODUCTS

**ELIMINATING** shower room clutter and the constant problem of accumulated water is the job of Space-Links mats. Colorful and rugged, these all-vinyl mats have a patented open weave construction that permits water to drop below the mat's surface. This keeps floors dry and aids in stopping athlete's foot. A variety of colors are available.

A **BALL** featuring durability along with the feel needed for delicate shots is what the new Golden Ram MK-IV is all about. A pioneer in Surlyn® covered balls, Ram has found a process to cause the Surlyn to flow around the natural rubber windings with less heat and in a shorter time, allowing the rubber to stay livelier. Ram is celebrating the introduction of the ball with a pro shop introductory offer, featuring its Zebra putter. Information will be supplied on request.
