

WHO WILL TEACH THE TEACHERS?

Meet Dr. Fred V. Grau

This man became a turf specialist through education, hard work and perseverance. His many years of learning paid off in development of turf grasses such as Meyer Zoysia, Merion Bluegrass, Penngift Crown Vetch.

But, what about our new group of research people? Inflation, higher costs of education, make it more difficult for promising turf grass researchers to complete their graduate education.

That is why Dr. Grau is dedicating his time to the MITF. The MITF is dedicated to the training of future researchers and teachers throughout the world.
