

Lined, waterproof golf boots

Tretorn, Inc., now offers a golf boot for playing in cold or wet weather that could damage conventional golf shoes. Made from pliant vulcanized rubber with 11 tungsten carbide spikes molded into the sole, the boot includes arch and ankle supports and a felt innersole.

Ladies' resortwear

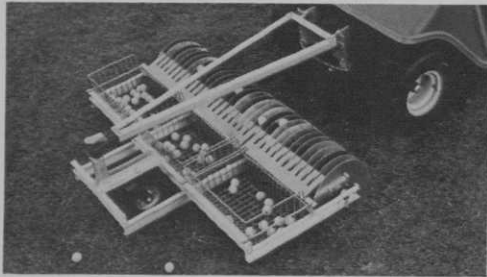

David Crystal Co.'s Haymaker line of women's golf clothes encompasses a wide variety of styles and colors. Included are these three: a 100 percent Dacron polyester golf dress in aqua or yellow; a Lacoste shirt and pull-on skirt trimmed in contrasting colors, both in 100 percent Dacron; and a combination cotton-and-polyester tanktop in white with choice of four colors of trim to match poplin skirt or pants in white and four solid colors. The last model has an orlon acrylic V-neck pullover sweater thrown across her shoulders; it comes in seven colors.

Two-drum aerator

Model TCA-550 aerator has 240 tines, 120 on each of its two drums, on 2-inch centers. It makes a neat, clean hole pattern, 25 inches wide, and will aerate a 5,000-square-foot green in less than 15 minutes, leaving it in playable condition. Choose from 1/2-, 3/8-, and 3/4-inch pivoting tines. The manufacturer, De-does Industries, Inc., also offers a 120-tine economy model.

Irrigation sprinkler heads

Two Rain Pro sprinkler heads with four rotating nozzles have been designed by The Toro Co., Irrigation Division, to reduce water use as well as installation and maintenance costs. There is a 6-inch head that has a 3/2-inch pop-up and a shrub version with no pop-up that measures 6 1/2-inches. Both have a 3/4-inch inlet, can deliver 75 pounds per square inch pressure, and distribute water in arcs from 90 to 270 degrees.
