1 This calendar contains a separate page for each month of the year. Printed in the blocks for the proper dates in each month are **listings of national, regional, and state events**. Golf business and turf events are printed in black; these include conferences, trade shows, field days, seminars, annual meetings, workshops, etc. Printed in color (men's in blue, women's in red) are USGA, PGA, and LPGA golf tournaments. For further details on any of the business or turf events, contact the sponsoring organization noted at the beginning of each listing. **Addresses and phone numbers for all of these organizations** can be found in the roster on pages 2 and 3 of this calendar. We suggest that you read through the listings now and mark the ones you will want to attend — checking or circling them with a colored pen is a good way to do it.

2 In the same manner in which the editor has listed national and regional events for you, **you can write in local or club events** as you learn about them. This way you not only keep track of them, but you also can avoid conflicts in scheduling. Blank spaces in the calendar blocks can be used to **schedule appointments** with equipment and supplies salesmen or with owners, greens chairmen, other course management, or employees. You will then be able to see at a glance whether you are being asked for an appointment on a day you will be out of town at a turf conference, or if two salesmen want to visit you at the same time.

3

4 At the bottom of the page for each month we have provided space for you to write in **special projects** and other things you plan to do during that month, but have not scheduled for a specific date. This is a good way to plan ahead and to remind yourself when to start rebuilding a tee, when to have someone trim the trees on your course, when to fertilize, when to overseed, when to paint the benches.
