Iron-faced woods

Club members or customers who have trouble hitting fairway woods will be interested in the Three Ease series of clubs offered by Matzie Golf Co. The wood heads have an iron face that lifts a ball faster than normal woods and makes it easier to hit from tight lies or traps. The USGA-approved clubs are numbered 3 through 9 for right-handed players and 5 through 7 for left-handers.

Insert adhesive

Polygem Products has come up with a new adhesive to repair face inserts to wood club heads. Adhesive No. 223 is applied to the metal insert and left to dry at room temperature.

Improved spreader

O.M. Scott and Sons has produced an improved rotary spreader that is more durable and distributes seeds more evenly. The R-7X model has a 3,800-cubic-inch hopper and weighs 25 pounds. It replaces the R-7 and PR-1 model spreaders in the Pro-Turf line.

Tractor mower

Continental Belton Co. offers its center-mounted tractor mowers, model KTR-60. A cantilevered suspension system supports the tractor, eliminating the need for chains and bars between the mower and the tractor's underside. The cutting blades can be adjusted by using a hydraulic lift without leaving your seat.
