The Lestronic charger... extends battery life and reduces maintenance.

The Lestronic charger totally eliminates over and undercharging on any battery, regardless of age, temperature, or condition. This "fool proof" charger will extend battery life and reduce required maintenance with precise charging every time.

The Lestronic knows when to quit.

There's no trickle charge to burn your batteries. The patented Compu-Time I timer totally shuts off when the battery is fully charged. Left connected, the Lestronic will keep batteries charged indefinitely since the Compu-Time I timer will automatically turn on every 2½ days.

**"The charger
with a brain."**
