Lester Electrical brings you "the battery charger with a brain" for your golf car fleet. The patented electronic timer on the Lestronic II shuts off when the battery is precisely charged. Because it knows when to quit, the Lestronic II completely eliminates over and undercharging of any battery. Lester's precise charging greatly extends battery life and lowers the water use rate of each battery. *With the rising cost of batteries, this means a big savings to you through reduced battery replacement and maintenance costs.*
