Success Starts With the Best.

Mike Stever  
President, Stever Turf Farms  
Franksville, Wisconsin

Mike Stever, President of Stever Turf Farms sells only premium sod. That's why his only seed vendor is Turf-Seed, Inc. "In a high-end market like mine," he says, "the best thing you can do is start with good seed. I find Turf-Seed varieties to be rock-solid. The seed is clean, and I get great germination. The quality follows through, right to the customer."

"I can plant varieties like Brilliant, Moonlight and Northstar, and sell it in one year, replant, and sell it again next year," he says. Sometimes I don't even have to mow. It thrives through the winter, and I might mow it once in Spring before it sells. My customers can't believe how good their sod looks."

"Because of Turf-Seed's quality, I was able to afford this new sod cutting machine. Some people don't realize it, but I learned - there is a difference. In my mind, there's nothing else to plant."
