About the cover

We think Art Glazer, an illustrator from Mt. Kisco, N.Y., was right on the money regarding our cover concept.

76

We Can Work It Out

Life is short, and there's no time for arguing about aerification with the pro. So here are several tips to improve your relationship with him or her.

TurfGrass Trends

This month, *Golfdom's* practical research digest for turf managers reports on how to retain nutrients on calcareous sand greens, among other things. Pages 81-98.

CORRECTION

In the paragraph referring to the A series bentgrasses from Turf-Seed (January, page 36), the following information was incorrect:

■ The A series bentgrasses should be called the Penn A's and Penn G's bentgrasses.

■ The Penn A's and G's bentgrasses are marketed from Tee-2-Green, not Turf-Seed.
