38

Back in Business at Baltusrol

After exiting Oakmont and nearly leaving the greenskeeping field, Mark Kuhns finds new life at the site of this month's PGA Championship.

By Thomas Skernivitz

46

Oakmont's Overhaul

Members seek to restore classical course to its glory days . . . and bring it up to date.

By Larry Aylward

54

Mr. Sand Man

Nobody crafts a bunker better than Jeff Bradley, the shaper of the Coore-Crenshaw design team.

By Geoff Shackelford

76

Under Fire

Superintendents burn turf to preserve native vegetation and encourage wildlife.

By Anthony Pioppi

Play...

cover story

BY BRUCE ALLAR

Traditionalists will argue for 18 holes and par 72, but a growing number of architects and developers suggest a new reading of the game's history.

30

About the cover

Golfdom's Carrie Parkhill used this image from Comstock to help illustrate that change is coming to the golf industry.

Gone Before?**

80

Hold Water

Some superintendents are irrigating less during overseeding — and getting good results.

By Peter Blais

86

Building a Better Green

USGA's changes to "Recommendations for a Method of Putting Green Construction" make agronomic, economic sense.

By Sarah Willnerd

59

TurfGrass Trends

This month *Golfdom's* practical research digest for turf managers discusses the role of nematodes in an integrated pest management program. See pages 59-74.
