Reckless Op?

The push to increase green speed hasn't slowed down, which could mean there's an accident waiting to happen.

By Thomas Skernivitz

46

Prevent Defense

The best way to control dollar spot on greens is to not let it surface in the first place, technical experts say.

By Larry Aylward

50

Poa Shakedown

Clemson professor Bert McCarty offers 10 tips on how to disarm annual bluegrass.

By Thomas Skernivitz

54

Accessory City

More superintendents seek sleek add-ons for greens mowers to improve cutting and overall performance.

By Pete Blais

Real-Life Solutions

A Healthy Injection for the Greens — and the ...

Machine uses a high-speed, water-based system that's dramatically changing the way superintendents handle routine aeration.

By Shane Sharp

guide on green maintenance

cover story

This month *Golfdom* offers its annual guide on green maintenance. Our report hits on everything from the problems of green speed to dealing with *Poa annua*.

36

About the cover

Check out this cool view from the top of a lush-looking green and a golf hole. Art direction by Carrie Parkhill. (Flag by Image100, putting green image by Mike Klemme.)
